Johnson, 2016-05-31 A guide to platform businesses that shows how they work how to replicate the success of some of history's best platforms and how to handle disruption A stimulating book The authors are particularly interesting on how modern platform companies are able to outsource much of their innovation The Financial Times Modern Monopolies brilliantly lays out the formula for how to get rich in the platform economy From building audiences to creating network value this book will become the handbook for the next generation of business leaders George F Colony CEO Forrester Research In Modern Monopolies Alex Moazed and Nicholas L Johnson tell the definitive story of what has changed what it means for businesses today and how managers entrepreneurs and business owners can adapt and thrive in this new era What do Google Snapchat Tinder Amazon and Uber have in common besides soaring market share They're platforms a new business model that has quietly become the only game in town creating vast fortunes for its founders while dominating everyone's daily life A platform by definition creates value by facilitating an exchange between two or more interdependent groups So rather than making things they simply connect people The Internet today is awash in platforms Facebook is responsible for nearly twenty five percent of total Web visits and the Google platform crash in 2013

took about forty percent of Internet traffic with it. Representing the ten most trafficked sites in the U.S., platforms are also prominent over the globe. In China, they hold the top eight spots in web traffic rankings. The advent of mobile computing and its ubiquitous connectivity have forever altered how we interact with each other, melding the digital and physical worlds and blurring distinctions between offline and online. These platform giants are expanding their influence from the digital world to the whole economy. Yet few people truly grasp the radical structural shifts of the last ten years. Satisfying and timely a valuable contribution to our understanding of modern business.

Booklist A provocative and highly accessible primer on building twenty-first century monopolies that aptly deconstructs the winners and losers with deep insight and analysis. Modern Monopolies provides a deep understanding of emerging platform business models that is required to create the next Amazon, Google, or Uber.

Craig Hatkoff, Co-Founder of the Tribeca Film Festival, Disruptor Foundation. *Rainbow Crystal: The Special Boy Who Could*, Samantha Caprio-Negret, 2024-03-20. Two and a half years ago, the journey to Raiven was more real to Seraphina than anything she's ever experienced. Lately, the twelve-year-old is having dreams and visions that Raiven and the rainbow crystal are in trouble again. But Seraphina isn't alone in her dreams with a specific message. Sweet and innocent Ava and the new, cute kid with autism, Enzo, dream about strange things they don't understand as well. The message that all three dream about: Come and bring the Special Boy Who Could.

Broadcasting, 1981. Digital Transformation in Sustainable Value Chains and Innovative Infrastructures, Galimkair Mutanov, Askhat Serikbekuly, 2022-10-05. This book includes 15 works by scientists of the Eurasian region which reveal the various stages of the life cycle of digital transformation. The creation of value propositions and their distribution chains is important for the sustainable development of society. This view of sustainable value chains, on the part of public administration and business, considering modern scientific research, reveals the problems of education and science in the formation of chains, sustainability, and their infrastructure. Modern views on the actual problems of the digital service in the creation of value propositions with the participation of development institutions, new educational technologies, and state regulation, both at the level of the world community and at the level of individual countries, are revealed. The problems of digital transformation of economic actors and industries at different stages of the chain of value creation from a position of sustainable development innovation in the infrastructure of public administration markets are considered. This book is useful to the academic community and a new generation of infrastructure creators to identify vectors to support the innovative development of value chains.
