Management and Marketing for Improved Retail Competitiveness and Performance Santos, José Duarte, Pereira, Inês Veiga, Pires, Paulo Botelho, 2023-07-28 The growth of companies online presences is an unquestionable reality However not everything goes online and the physical presences of companies continue to exist with the physical retail point of sale as a place for experimentation and immediate consumption brand showroom and support for online sales which are fundamental to the shopping experience Managing a retail point of

sale implies acting on several fronts bearing in mind the market requirements the point of sale's brand strategy the strategies of the brands being sold and all other aspects related to the management of a business while considering the specificities of a retail point of sale Management and Marketing for Improved Retail Competitiveness and Performance provides knowledge and skills to allow readers to understand and apply the different concepts techniques and tools to manage a retail point of sale in the various aspects of a business Covering key topics such as advertising client loyalty and merchandising this premier reference source is ideal for business owners managers marketers researchers scholars academicians practitioners instructors and students *Regulating the Metaverse* Ignas Kalpokas, Julija

Kalpokienė, 2023-01-26 The metaverse seems to be on everybody's lips and yet very few people can actually explain what it means or why it is important This book aims to fill the gap from an interdisciplinary perspective informed by law and media and communications studies Going beyond the optimism emanating from technology companies and venture capitalists the authors critically evaluate the antecedents and the building blocks of the metaverse the design and regulatory challenges that need to be solved and commercial opportunities that are yet to be fully realised While the metaverse is poised to open new possibilities and perspectives it will also be a dangerous place one ripe with threats ranging from disinformation to intellectual property theft to sexual harassment Hence the book offers a useful guide to the legal and political governance issues ahead while also contextualising them within the broader domain of governance and regulation of digital technologies

The Therapeutic Powers of Play Athena A. Drewes, Edward (Franc) Hudspeth, 2025-11-13 With contributions by the world's leading play therapy experts this sumptuous teaching and learning resource gathers the most commonly used research based play therapy theories into a single resource illustrated by using a common case study and chapter structure across all theoretical approaches

Privacy in the Age of Big Data Theresa Payton, Ted Claypoole, 2023-03-15 A thorough update to a classic in the field of privacy and big data We have a global privacy problem The average person provides more information about themselves to more outsiders than any time in history Corporations governments and even our neighbors can know where we are at times can quickly learn our preferences and priorities and see who we meet The past decade has brought deep changes in the collection of our private information the regulation of that collection and in people's sensitivity to loss of privacy The nascent privacy threatening technology trends of a decade ago have blossomed into relentless data capturing systems that police and companies have come to rely on To address the expansion of personal data capture entire data regulatory regimes have arisen throughout the world with new regulations added each year People are more concerned regulators are more aggressive yet data collection continues to increase with consequences around the world Social media use has fragmented in the past five years spreading personal information over dozens of platforms Even most of our new televisions have started collecting second by second information about our households recently and some of those televisions can recognize the individuals watching and the devices they carry Amazon just activated a new worldwide network using

bandwidth from personal wifi of Echo devices and Ring security systems The beat of new intrusions never seems to end These data trends are relentless and yet response to the pandemic accelerated them Rapid development of contactless everything became the norm Contact tracing apps became acceptable QR codes for everything from menus to contact information were created quickly Businesses are faced with hybrid in office and remote workforces More people are dependent on online and mobile technologies for food medicine and even human connection And each of these contacts can be captured somewhere and logged in a file for marketing or surveillance People want to keep their lives private but they don't know how The second edition of Privacy in the Age of Big Data addresses the significant advances in data driven technology their intrusion deeper in our lives the limits on data collection newly required by governments in North America and Europe and the new security challenges of world rife with ransomware and hacking This thoroughly updated edition demonstrates personal privacy vulnerabilities and shows ways to live a safer more private life Other privacy books tend to focus deeply on the evils of large tech companies or more academic and technical concerns But Privacy in the Age of Big Data second edition helps regular people understand the privacy threats and vulnerabilities in their daily lives and will provide solutions for maintaining better privacy while enjoying a modern life Unlike other books this one shows what you can do to make a difference to understand your current digital footprint and what you need to do to claw back your privacy and secure it in the future While PRIVACY IN THE AGE OF BIG DATA will have cross sectional appeal to many demographics working adults 25 60 and CEOs and Boards of businesses are the primary demographic young enough to know we need to do something to protect privacy and old enough to remember what happens when we haven't in the past With down to earth prose and examples pulled from daily life the writing style will attract buyers of all education levels The Everything Token Steve Kaczynski, Scott Duke Kominers, 2024-01-25 NFTs cause excitement and skepticism How much value can a token hold What drives this value To properly appreciate NFTs we must first understand what they actually are how they work and in what contexts they are used The Everything Token is an essential primer on NFTs non fungible tokens explaining their use purpose and how businesses can create and exploit them to develop new product lines building customer loyalty and increased revenues at the same time Together the authors have spent much of the past few years embedded in NFT communities and helping launch NFT products As self described beta testers of this brand new technology they've seen its power first hand and aim to educate others on the importance uses and purpose of NFT and surrounding ever evolving technologies Demystifying the complexities two experts in NFTs show why we should take NFTs much more seriously than their reputation as fun digital art collectibles suggest They have a wider variety of uses than one may realise Gripping and accessible this book provides a guide and an insight into what can often be a hard to grasp area of technology
