**Startup Finance 2.0** Sam Ghosh,2025-08-29

Traditional corporate financial theories and tools are based on matured companies with the assumption that the companies are going concerns Going Concern refers to the assumption that a company will continue to operate indefinitely with no intention or necessity of liquidation or cessation of operations in the foreseeable future The problem is that the Going Concern assumption does not hold for startups due to the inherent uncertainty associated with startups Traditional financial education and resources usually meant for analysts and accountants aren't ideal for entrepreneurs They focus on analyzing past data from established businesses not on making forward looking decisions in the uncertain and highly dynamic environment of startups Entrepreneurs also often struggle to prioritize the allocation of resources between seemingly urgent matters and matters that are important for the long term value of the startup Thus this book takes a value oriented approach to startup

finance The book is designed to build the financial intuition that an entrepreneur needs to prioritize matters vital for the long term value of the company raise capital and allocate capital for value maximization It also looks at finance from a value creation point of view and covers specific methods especially suited for startups from investment assessment to valuation to fundraising to managing day to day finances Gaming and Gamers in Times of Pandemic Piotr Siuda,Jakub Majewski,Krzysztof Chmielewski,2024-01-11 This edited collection brings in multiple scholarly perspectives to examine the impact of the pandemic and resulting government policies especially lockdowns on one particular cultural sphere games The COVID 19 pandemic has impacted virtually every aspect of our lives regardless of where we live In the initial months many industry reports noted the unexpected positive impact on online digital game sales Games were not just lockdown proof but boosted by lockdowns Stay at home orders triggered a rush toward games as an alternative form of entertainment and the ubiquity of mobile phones allowed wider than ever participation Gaming and Gamers in Times of Pandemic studies how the COVID 19 pandemic affected game players game developers game journalists and game scholars alike in many other ways starting with the most direct illness and sometimes death Some effects are temporary others are here to stay
