Blockchain and the Metaverse Upendra Embranthiri, 2024-12-15 *Blockchain and the Metaverse Shaping the Future* is a comprehensive guide exploring how blockchain and the metaverse will change our lives. This book is divided into 16 concise chapters, each offering clear explanations of the metaverse, its evolution, and its impact on various fields such as real estate and medicine. We start by defining the metaverse, its current state, and future potential. The book delves into how blockchain and related technologies like crypto and web3 are integral to the metaverse. We discuss various perspectives on the future of these technologies beyond just virtual reality. The book revisits the metaverse's usage in subsequent chapters, illustrating its applications through case studies like State of Fashion, which uses metaverse technology. We also address the broader implications of these innovations and their potential to transform industries and daily life. *Blockchain and the Metaverse Shaping the Future* provides a detailed understanding of the intersection between blockchain and the metaverse, offering valuable insights for anyone interested in these groundbreaking technologies. *The End of Reality* Jonathan

Taplin, 2023-09-07 A wake up call fascinating Scott Galloway author of *The Four* Please read this Jaron Lanier author of *Ten Arguments For Deleting Your Social Media* From the author of *Move Fast and Break Things* comes a withering takedown of four billionaires from Andreessen to Zuckerberg who are selling us fantasies while the world burns. At a time when multiple crises are compounding to create epic inequality, four billionaires are hyping schemes that are designed to divert our attention away from issues that really matter. Each scheme, from the metaverse to cryptocurrency, space travel, and transhumanism, is an existential threat in moral, political, and economic terms. In *The End of Reality*, Jonathan Taplin shines a light on the enormous cultural power of Peter Thiel, Elon Musk, Mark Zuckerberg, and Marc Andreessen, questioning whether we want our society to be run by people who receive blood transfusions to stay young. Will we really want our children anywhere near the metaverse? Do we trust Musk to rule over Mars? Tech monopolies have hollowed out the middle class and brought unbounded public acrimony. Meanwhile, enormous amounts of taxpayer money are funnelled into dystopian ventures, the benefits of which accrue to billionaires. *The End of Reality* is both a scathing critique of the warped worldview of a tiny minority and a vision of a truly regenerative economics to build a sustainable society with healthy growth and full employment.
