### *Value Realization in the Phygital Reality Market*

Lin Huang,Biao Gao,Mengjia Gao,2023-08-09 This book is a timely and much needed comprehensive compilation that reflects the development of research on consumption and communication in the conflation of the real and digital worlds bringing together the current state of thinking about the phygital reality market and the cutting edge challenges that are involved In this book the term phygital reality market is used implying that the physical digital and virtual realms are fused into one to recognize and understand the market with multiple or mixed realities The concept of the phygital reality market captures the new realities that consumers are shopping consuming and living and companies are competing within the physical digital and virtual marketplaces The book covers the research on consumption service and communication in the phygital reality market and compiles the current state of thinking challenges and cases having to do with the acceptance and diffusion of new technologies of phygital reality The interest in the phygital reality market such as omnichannel retailing integrating physical stores and online services has grown hugely over the last two decades particularly since the coronavirus pandemic COVID triggered severe social and economic disruption around the world but has accelerated the acceptance and diffusion of new technologies in the phygital reality market where the physical digital and virtual worlds are conflated Versatile problem solving and new challenges are reflected in the value realization process of innovation in other words widespread acceptance and diffusion of devices or services that embody new technologies The excitement and hype associated with the metaverse

have highlighted the need to understand the creation and adoption of new technologies in consumption and marketing recognition of the foundational role of new technologies in driving consumer behavior and marketing theory and practice in value realization as a vital part of the process of digital transformation *Infrastructures of Reality: Metaverse Stories, Spaces, Bodies* Chris Hesselbein, Paolo Bory, 2025-08-09 This open access book focuses on two dimensions of the development of the metaverse that are crucial to reality namely spatiality and embodiment Metaversal technologies are thought to fundamentally affect both our spaces and bodies which are two central aspects of the constitution of social reality Both spatiality and embodiment are core elements of world making that are being pulled into the ambit of metaversal projects On the one hand metaversal technologies are profoundly spatial in the sense that they render space in virtual form or overlay digital layers onto pre existing physical spaces On the other hand metaversal technologies are directly geared towards the body in that they not only seek to extend or expand our embodied senses and emplace our bodies in virtual spaces but they also seek to capture their behaviours and actions on a far more granular level This can create new opportunities in terms of work social interaction and leisure but can also open our bodies up to new tech driven interventions and control Whether in the form of VR or AR such technologies not only reproduce space but also rely on making spaces more legible and open to automated interventions Taken together the metaversification of spaces and bodies gives rise to crucial questions about the goals and implications of metaversal developments by large technology companies and about the relationship between the developments of the metaverse and AI systems Drawing on our combined background and expertise in Science and Technology Studies and the History of Media and Communication we critically analyse the development of metaversal technologies and platforms by discussing a broad set of developments and examples from a wide range of technology and gaming companies Written in clear concise and accessible language and combining and applying novel theoretical frameworks and concepts to a currently emergent phenomenon this book will find a large audience not only within academic and professional circles but also in popular culture *Press Play* Bastian Bergmann, 2025-09-09 An eye opening look at the rapidly rising growth of gaming and the companies including Peloton Burberry the New York Times BMW and Chipotle that are using games to win over customers Today s consumers demand more than products they crave immersive personalized experiences As a result traditional marketing and engagement strategies have lost their edge The new frontier Gaming where over three billion people worldwide spend their time attention and money In *Press Play* Bastian Bergmann cofounder and COO of Solsten shows how visionary companies are capitalizing on gaming s unstoppable rise Drawing on exclusive interviews and access to forward thinking companies ranging from Adidas and Puma to NASCAR and Unilever Bergmann provides an insider s view of gaming s transformative power He also delivers a practical road map for business leaders offering strategies that range from low risk partnerships to ambitious full scale gaming ventures Filled with cutting edge insights and behind the scenes stories of iconic organizations and groundbreaking startups *Press Play* will help you
