The Blendification System Daniel

Bruder,2020-05-18 Shelving Guide Business and Management Strategic Planning Leadership Operations Culture Strategy Execution These three components forge the path to realized potential The Blendification System breaks down and rebuilds these core concepts within your company's DNA setting the foundation for an energizing, engaging and impactful organization. It is based on the belief that many organizations fail to maximize their potential because they simply do not comprehend the magnitude of their personal and collective untapped capabilities. Many workplaces are stuck in second gear not quite embracing and pursuing their full potential. Corporate missions are based on market dominance and incremental profit growth leaving a massive blind spot in terms of the connection between employees, customers and communities. This short sightedness may provide a clear focal point but it leaves the company, its leadership and its employees with limited sustained motivation to realize potential. The Blendification System embraces the connection between culture, strategy and execution using the Strategy Whiteboard and integrating emotional and system intelligence into the following three step model: Strategic Analysis including Culture, Strategic Focus, Strategic Outcomes and Strategic Actions, Strategic Execution. The Blendification System connects culture, strategy and execution in a meaningful way that fosters an inspired, exceptional workforce. By focusing on the unifying purpose within each organization, the platform promotes alignment between leadership and employees setting a clear, strong foundation in which every individual can thrive. With this foundation in place, organizations activate their employee's potential who then take care of their customers. By fully engaging those with whom organizations directly interact, these individuals then become the spark that ignites community wide advancement. This is not a theory based philosophical book. This is an in depth operating system by which organizations reshape their infrastructure to realize potential. The methodology outlined in The Blendification System creates agile and efficient action maximizing success in periods of economic expansion and times of uncertainty such as the COVID 19 outbreak, the Great Recession and 9 11. By following the structure outlined in The Blendification System and using the Strategy Whiteboard, organizations will move beyond financial success to uplifting employees, customers and entire communities.

The Wall Street Journal In just a decade and half Jack Ma a man who rose from humble beginnings and started his career as an English teacher founded and built Alibaba into the second largest Internet company in the world. The company's 25 billion IPO in 2014 was the world's largest valuing the company more than Facebook or Coca Cola. Alibaba today runs the e-commerce services that hundreds of millions of Chinese consumers depend on every day, providing employment and income for tens of millions more. A Rockefeller of his age Jack has become an icon for the country's booming private sector and as the face of the new consumerist China is courted by heads of state and CEOs from around the world. Granted unprecedented access to a wealth of new material including exclusive interviews Clark draws on his own first hand experience of key figures integral to

Alibaba's rise to create an authoritative compelling narrative account of how Alibaba and its charismatic creator have transformed the way that Chinese exercise their new found economic freedom inspiring entrepreneurs around the world and infuriating others turning the tables on the Silicon Valley giants who have tried to stand in his way An expert insider with unrivaled connections Clark has a deep understanding of Chinese business mindset He illuminates an unlikely corporate titan as never before and examines the key role his company has played in transforming China while increasing its power and presence worldwide A must read for anyone hoping to navigate China's new economy **Financial Times**
