their feet while others fall down crippled under the weight of life's obstacles. In almost all cases, both individuals started out with similar capabilities and resources. So what's the difference? I believe those who succeed approach problems as opportunities and are driven by a "candor" attitude. Moreover, they have high expectations. They face every challenge with the belief that they will succeed in the end. In this inspirational book, Michael Bergdahl will explain how he and his wife Sheryl overcame adversity and achieved their goals in life, and he'll explain how you can do it too: how YOU can overcome life's challenges, how YOU can control your own destiny, how YOU can reach your full potential.
