Business Anshuman Khare, Hiroki Ishikura, William W. Baber, 2019-12-06 This book explores how the business transformation taking place in Japan is influenced by the digital revolution Its chapters present approaches and examples from sectors commonly understood to be visible arenas of digital transformation 3D printing and mobility for instance as well as some from not so obvious sectors such as retail services and fintech Business today is facing unprecedented change especially due to the adoption of new digital technologies with a noticeable transformation of manufacturing and services The changes have been brought by advanced robotics the emergence of artificial intelligence and digital networks that are

growing in size and capability as the number of connected devices explodes In addition there are advanced manufacturing and collaborative connected platforms including machine to machine communications Adoption of digital technology has caused process disruptions in both the manufacturing and services sectors and led to new business models and new products While examining the preparedness of the Japanese economy to embrace these changes the book explores the impact of digitally influenced changes on some selected sectors from a Japanese perspective It paints a big picture in explaining how a previously manufacturing centric successful economy adopts change to retain and rebuild success in the global environment Japan as a whole is embracing yet also avoiding innovating but also restricting various forms of digitalization of life and work The book with its 17 chapters is a collaborative effort of individuals contributing diverse points of view as technologists academics and managers
