Bachelor Thesis from the year 2020 in the subject Business economics. Offline Marketing and Online Marketing, grade 2.0. Reutlingen University, ESB Business School, language English, abstract. With fitness being a huge topic over the last couple of years, many fitness brands started collaborating with fitness influencers on social media platforms. Especially micro-influencers on Instagram have gained attention in the previous years since they show high engagement rates and are perceived as credible sources of information. Particularly for young consumers, micro-influencer marketing has turned out to be an effective and contemporary brand communication strategy. The present bachelor thesis gives an overview of the effects of Instagram micro-influencers on the buying decision. Here, the impact on Generation Z towards fitness products was examined with an extensive literature review and a quantitative study in the form of an online survey.
