A Typical Year in the NFL

The featured football league, commonly known as the NFL, is the United States' top level American football competition. The league has thirty-two teams and its schedule makes time to fit two hundred and seventy-two games into very regular seasons. Some of these matchups are now also played in other parts of the world, such as Mexico, the United Kingdom, Germany and South America. In order to keep the league running smoothly, games and events take place throughout the year.

100

Every year, a total census begins in September and runs for 10 months.

Planning for this year's month's action information is collected by schedule makers as early as the spring to help guide our marketing efforts and locations.

100

Thousands of computers are used to create different weather hypotheses before one is picked that works for some time.

Throughout the regular season, each team will play numerous games, most of them take place on Tuesday afternoons. Every 9th team will have one "bye week" (when they don't play a game) inserted in their schedule so players can rest and coaches can receive feedback.

10

In January, the regular season reaches its end and is followed by the postseason, when the best teams take part in playoff and championship games. However, the league's highlight and its final game is Super Bowl, which usually takes place in February.

Applied Sport Management Skills Fourth Edition With HKPropel Access takes a practical approach for teaching students how to become strong leaders and managers in the world of sport. Organized around the central management functions of planning, organizing, leading, and controlling, and addressing the Commission on Sport Management Accreditation (COSMA) Common Professional Component topics and North American Society for Sport Management (NASSM) guidelines, the fourth edition has been extensively updated with hundreds of new references and sport examples. The text employs a three-pronged approach for teaching management theory, putting theories into practice, and developing students' management skills. Timely discussions and case studies address the impacts of COVID-19, Black Lives Matter initiatives, name, image, and likeness rules, women in executive positions, corporate social responsibility, data analytics, and more. While other texts focus on learning about sport management, *Applied Sport Management Skills* enables students to apply the principles while developing the skills to become effective sport managers. Interactive online learning tools available through HKPropel complement activities found in each chapter. Flash card activities help students learn key terms. Self-assessments, which ask students to identify their strengths and weaknesses and plan to improve shortcomings, are now assignable, trackable, and automatically scored. Applying the Concepts quizzes, which challenge students to identify management concepts illustrated in various situations, are now trackable and automatically scored. Time Out features, in which students apply management concepts to their personal sport and work experiences, are now assignable instructor-scored assessments. Case studies are now supplemented by 10 question automatically scored quizzes and include three open-ended discussion questions. Additional assignments available in downloadable documents for students to complete and submit to the instructor further facilitate the application of the concepts presented in the text. Sport Management Professionals Work activities provide a cohesive thread to keep students focused on how sport managers use the concepts on the job. Skill Builder Exercises present real-world scenarios designed to help future managers handle day-to-day situations such as setting priorities, conducting job interviews, handling conflict, and coaching employees. Sports and Social Media Exercises introduce students to the role of social media in managing sport organizations. Students review popular social media sites such as Facebook, Twitter, and LinkedIn and visit sport websites. Game Plan for Starting a Sport Business features ask students to perform managerial tasks such as developing an organization structure and brainstorming ideas for leading employees. With *Applied Sport Management Skills*, students will be primed for an exciting career in sport management by gaining a thorough understanding of management theories and developing the acumen to apply them.
