Tour Dates Prices Returns:

Co-movement of major commodity price returns: A time-series assessment de Nicola, Francesca, De Pace, Pierangelo, Hernandez, Manuel A., 2014-06-13 This paper provides a comprehensive analysis of the degree of co movement among the nominal price returns of 11 major energy agricultural and food commodities using monthly data between 1970 and 2013 The authors study the extent and the time evolution of unconditional and conditional correlations using a uniform spacings testing approach a multivariate dynamic conditional correlation model and a rolling regression procedure

Analyzing Financial Data and Implementing Financial Models Using R Clifford S. Ang, 2021-06-23 This advanced undergraduate graduate textbook teaches students in finance and economics how to use R to analyse financial data and implement financial models It demonstrates how to take publically available data and manipulate implement models and generate outputs typical for particular analyses A wide spectrum of timely and practical issues in financial modelling are covered including return and risk measurement portfolio management option pricing and fixed income analysis This new edition updates and expands upon the existing material providing updated examples and new chapters on equities simulation and trading strategies including machine learnings techniques Select data sets are available online

Value Creation in European Equity Carve-Outs Nikolas Pojezny, 2007-10-24 Over the past two decades equity carve outs ECOs have become an increasingly popular form of corporate restructuring in Europe Individual business segments are separated from the parent conglomerate company and a minority stake is listed on the stock exchange The parent company thus retains economic control over the subsidiary while simultaneously creating more transparency for capital markets restructuring its investment portfolio and creating the option to either reintegrate or completely sell off the subsidiary at a later stage The attractiveness of ECOs as research objects is largely due to their dualistic nature as both means of parent company financing and corporate restructuring While comprehensive academic literature on ECOs already exists studies mainly focus on the US market The objective of the present study is to conduct corresponding analyses using a European sample allowing the examination of both research issues on an intra European level and of the admissibility of analogies between US and European results

Financial Modeling Simon Benninga, Benjamin Czaczkes, 2000 Too often finance courses stop short of making a connection between textbook finance and the problems of real world business Financial Modeling bridges this gap between theory and practice by providing a nuts and bolts guide to solving common financial problems with spreadsheets The CD ROM contains Excel worksheets and solutions to end of chapter exercises 634 illustrations
