**Good Meal Prep Ideas For Beginners and Dummies** Barbara Dawson, 2020-08-18 Meal prepping is making a meal or recipe then portioning it out to grab and go meals for later If you ve ever kept your leftovers from dinner to take with you for lunch then next day you ve already mini meal prepped Granted though meal prepping refers to preparing 3-7 days worth of food at a time Think of taking your lunches for the week all at once instead of keeping your lunch hours running You can use this same technique for breakfast lunch dinner and snacks Meal prepping prevents food waste and reduces time to eat outside your home whether the plan is a diet or a budget When considering the day after the question is how long will you be able to eat homemade meals without having to do it each day to refresh Meal prep is not for everyone It is good for those who value convenience and often more than anything With meal prepping you can eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping is not for you If having nutritious food what you're maximizing your time and budget is more valuable than eating something different every day meal prep is what you're looking for generally
