*Tame Impala's Currents* Alister Newstead, 2025-12-11 Studies Tame Impala's psychedelic album *Currents* (2015) as both an example of a cultural shift in music production and consumption and a project that cemented its creator Kevin Parker as one of Australian music's most unlikely success stories and influential exports.

**Art Cure** Daisy Fancourt, 2026-01-08 Discover how art can improve our health, make us happier and even help us live longer with the inspiring new book from the award winning scientist and world leading expert. Every day we are overwhelmed by advice on how to live better. *Art Cure* is an amazing antidote to the deluge of nonsense. Everyone should read this. XAND VAN TULLEKEN doctor and presenter elegantly distils the evidence for what we have always intuitively felt: that music, literature, cinema and art are powerful universal remedies. A book for our times. GILLIAN ANDERSON bestselling author, actress and activist. DIET, SLEEP, EXERCISE, NATURE, ARTS. Many of us consider making and consuming art to be a hobby or even a luxury. But what if arts engagement from classical music to salsa poetry to pop concerts, galleries to graffiti, was in fact one of our most powerful tools for unlocking health and happiness? What if art could help you live longer and even save your life? In *Art Cure*, world leading expert and award winning scientist Professor Daisy Fancourt reveals the life changing power of the arts, including how songs support the architectural development of children's brains. Creative hobbies help our brains to stay resilient against dementia. Visual art and music act just like drugs to reduce depression, stress and pain. Dance builds new neural pathways for people with brain injuries. Going to live music events, museums, exhibitions and the theatre decreases our risk of future loneliness and frailty. Engaging in the arts improves the functioning of every major organ system in the body. And perhaps most importantly, how art helps us not only to survive but to thrive and flourish. Fancourt draws on groundbreaking research in neuroscience, psychology, immunology, physiology, behavioural science and epidemiology, as well as inspiring true stories of people who have experienced radical changes in their health to empower readers to improve their own health through the arts. Informed by the results of decades of scientific studies, *Art Cure* is the must-read inspiring guide to improving your health, giving you the tools to write your own arts prescription. A revelation. Could not be more timely nor make a stronger, more urgent case for placing the arts at the centre of our communities.

Polityka ,2016 Wallaces Farmer ,2024-08 Should Spotify Bring Voice Assist Technology to the Smart Speaker Market? Christopher Diller,Stewart Pursley,Richard Gentry,2022 In 2018 Spotify started selling its shares publicly on the New York Stock Exchange The Swedish based start up that launched in 2008 was on its way to becoming the largest music streaming platform in the world At the time it was going public Spotify was used in 61 countries had 159 million active users and hosted a music library of 35 million songs Over the last decade Spotify has focused on increasing its music library available to stream and differentiating its brand from competitors by adding music videos live clips and podcasts to its service It has created a series of personalized playlists based on users preferences and song history It has also begun hosting live events All of these offerings have added to its popularity and brand loyalty from its streamers However one segment that Spotify has not tapped into an area that its competitors already dominate is the voice assist speaker system market Reports have shown that Spotify is looking to add voice assist capabilities to its platform and in turn considering the development of a proprietary smart speaker device By 2017 the voice assist speaker market had become a global phenomenon valued at USD 4 4 billion and is projected to reach USD 23 3 billion by 2025 Spotify has been focused on maintaining its lead in music streaming but now smart speaker manufacturing companies will be able to disintermediate Spotify as a non essential application breaking its connection to customers But with the current success of Spotify s music streaming platform and its competitors focused on the smart speaker segment that Spotify has no control over Spotify must decide whether or not to
