

Word Work: Level H

Level H Word Work will now introduce students to analogy charts. Analogy charts help students to distinguish between different sound patterns. You will have two columns for your analogy chart. At the top of the analogy chart you will ask the students to write down two words. Each word will have a different sound pattern. Then you will dictate the words to the students, and they will have to write the word under the correct column with the correct sound. Here are some examples of analogy charts that you can use with each story! I suggest letting students read the words cards that are after each passage to ensure they know the sounds of r controlled and trigraph igh. It will be easier for students if they have practiced reading and seeing these words first. *Printable Analogy chart in this pack*
