didn't know how out of place she would feel nor how unwelcoming her peers would be. When Orry graduated from university, he was told he'd probably land a six-figure salary. But he wasn't told he'd end up barely scraping a living wage, struggling to feed his children. Drawing on the stories of hundreds of American students, *The Years That Matters Most* is a revelatory account of a university system in crisis. Paul Tough, bestselling author of *How Children Succeed*, exposes a world where small-town colleges go bust while the most prestigious raise billions every year, where overstretched admissions officers are forced to pick rich candidates over smart ones, where black and working-class students are left to sink or swim on uncaring campuses. Along the way, he uncovers cutting-edge research from the academics leading the way to a new kind of university, one where students succeed not because of their background but because of the quality of their minds. The result is a call to arms for universities that work for everyone and a manual for how we can make it happen.
