

Neonatal Resuscitation Program™ (NRP)

Online Examination, 6th Edition

I. Overview

- a. The new NRP course format now requires learners to study the *Textbook of Neonatal Resuscitation, 6th Edition*, and take the online examination before attending an NRP course. Hospital-based instructors and regional trainers will also be required to take the online examination, as will applicants for an NRP instructor course.

In the previous NRP course, the majority of time was invested in lectures and a proctored exam. In this new model, self-study of the textbook and DVD and completion of the exam prior to the course frees up time for more valuable learning activities, including demonstration, discussion, hands-on practice, skills evaluation, and simulation and debriefing.

This test covers the material in Lessons 1 through 9 the *Textbook of Neonatal Resuscitation, 6th Edition*. Learners who are successful in completing the lesson reviews in the textbook should not find the exam difficult.

II. The pre-evaluation:

- a. Please enter a valid email address so that your records can be retrieved easily for future verification. A personal email address is preferred in the event you should change institutions and because institutional spam filter settings may prevent delivery of some communications.
- b. The pre-evaluation for the online examination will ask if you have identified an NRP instructor for the hands-on components of the NRP Provider Course. You should not begin the examination without having an instructor identified. If you complete the exam before you identify an instructor for hands-on skills and you are unable to locate a course within 30 days, you will need to retake the exam at your expense.

III. Taking the exam:

- a. The online test is arranged by lesson, in the same order as in the textbook.
- b. You may skip questions and come back to them.
