

## Basic Cells of the Nervous System

### Neuron

- Basic functional cell of nervous system
- Transmits impulses (up to 250 mph)

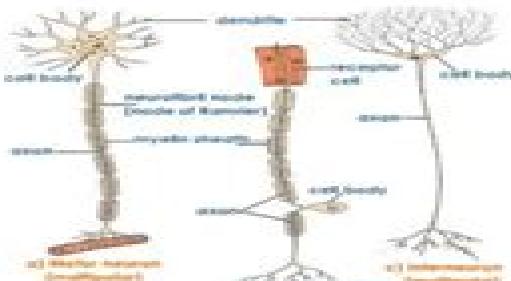

### Parts of a Neuron

- **Dendrite** – receive stimulus and carries it impulses toward the cell body
- **Cell Body with nucleus** – nucleus & most of cytoplasm
- **Axon** – fiber which carries impulses away from cell body
- **Schwann Cells** - cells which produce myelin or fat layer in the Peripheral Nervous System
- **Myelin sheath** – dense lipid layer which insulates the axon – makes the axon look gray
- **Node of Ranvier** – gaps or nodes in the myelin sheath
- **Impulses travel from dendrite to cell body to axon**

Three types of Neurons

- **Sensory neurons** – bring messages to CNS
- **Motor neurons** - carry messages from CNS
- **Interneurons** – between sensory & motor neurons in the CNS

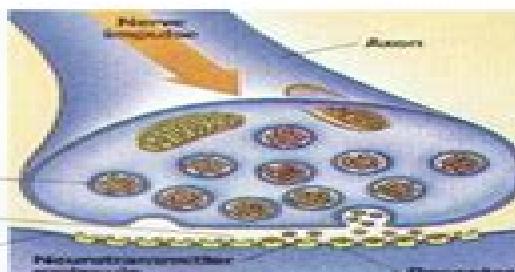

### Impulses

- **A stimulus** is a change in the environment with sufficient strength to initiate a response.
- **Excitability** is the ability of a neuron to respond to the stimulus and convert it into a nerve impulse
- **All or Nothing Rule** – The stimulus is either strong enough to start an impulse or nothing happens
- Impulses are always the **same strength along a given neuron** and they are **self-propagation** – once it starts it continues to the end of the neuron in only one direction- **from dendrite to cell body to axon**
- The nerve impulse causes a movement of ions across the cell membrane of the nerve cell.

### Synapse

- **Synapse** - small gap or space between the axon of one neuron and the dendrite of another - **the neurons do not actually touch at the synapse**
- It is junction between neurons which uses neurotransmitters to start the impulse in the second neuron or an effector (muscle or gland)
- The synapse insures one-way transmission of impulses

Chemicals called neurotransmitters cross a gap in the synapse and continue the nerve impulse.

### Neurotransmitters

**Neurotransmitters** – Chemicals in the junction which allow impulses to be started in the second neuron

# Nervous System Study Guide Answer Key Unit

**Michelle J. Willihnganz**

## **Nervous System Study Guide Answer Key Unit:**

**Study Guide for Pathophysiology - E-Book** Jacquelyn L. Banasik, 2026-03-15 More than 1 500 questions in a variety of formats including labeling multiple choice true false fill in the blank compare contrast and matching Variety keeps the student engaged and the quantity of questions ensures students have opportunity for in depth practice sessions Multiple case studies appear at the end of each unit with almost 50 case studies in all Case studies will feature questions that help students develop clinical reasoning and judgment but because pathophysiology is used by more than undergraduate nursing students we will be careful about branding them as strictly NGN Case studies help students practice application of concepts and develop critical thinking skills Answer key is conveniently located in the back of the study guide Thoroughly updated to match the 8th edition of the textbook

### **Study Guide to Accompany Pharmacology for Nursing Care** Marshal

Shlafer, Richard A. Lehne, 2004 This study guide features high caliber learning activities that apply the renowned Dr Marshal Shlafer's rich experience in teaching pharmacology to a wide range of student learning styles
