**Ultimate Gig** John T. Fleming,2021-03-25 Ultimate Gig will serve to answer questions and help gig providing companies and workers make decisions by informing inspiring and motivating as well as serving as a teaching tool Most importantly it will give the reader a better understanding of the most significant labor revolution in the past 100 years as to how work can be done

**Sharing Economy** Ming Hu,2019-01-11 This edited book examines the challenges and opportunities arising from today s sharing economy from an operations management perspective Individual chapter authors present state of the art research that examines the general impact of sharing economy on production and consumption the intermediary role of a sharing platform crowdsourcing management and context based operational problems Sharing economy refers to a market model that enables and facilitates the sharing of access to goods and services For example Uber allows riders to share a car Airbnb allows homeowners to share their extra rooms with renters Groupon crowdsources demands enabling customers to share the benefit of discounted goods and services whereas Kickstarter crowdsources funds enabling backers to fund a project jointly Unlike the classic supply chain settings in which a firm makes inventory and supply decisions in sharing economy supply is crowdsourced and can be modulated by a platform The matching supply with demand process in a sharing economy requires novel perspectives and tools to address challenges and identify opportunities The book is comprised of 20 chapters that are divided into four parts The first part explores the general impact of sharing economy on the production consumption and society The second part explores the intermediary role of a sharing platform that matches crowdsourced supply with demand The third part investigates the crowdsourcing management on a sharing platform and the fourth part is dedicated to context based operational problems of popular sharing economy applications While sharing economy is becoming omnipresence the operations management OM research community has begun to explore and examine different business models in the transportation healthcare financial accommodation and sourcing sectors This book presents a collection of the state of the art research work conducted by a group of world leading OM researchers in this area Not only does this book cover a wide range of business models arising from the sharing economy but it also showcases different modeling frameworks and research methods that cannot be missed Ultimately this book is a tour de force informative and insightful Christopher S Tang Distinguished Professor and Edward Carter Chair in Business Administration UCLA Anderson School of Management

**Regulating Gig Work** Joellen Riley Munton,Michael Rawling,2023-12-12 Digital revolution demands new approaches to regulating work The Uberisation of work is not in reality a new phenomenon It reintroduces the practices of on demand engagement of labour common prior to the development of continuing employment What is new however is the capacity of digital technology to engage labour in ways that avoid characterisation as employment according to the legal tests developed in the 20th century This book tackles the challenge of ensuring that the emerging tribes of gig workers in labour markets across the globe are afforded decent standards of work This book discusses how to provide decent

conditions and safe working standards for on demand workers engaged through digital platforms It interrogates the rise of gig work and the legal strategies that might be engaged to deal with the risk that on demand work will fall and remain outside of employment protections It draws on observations of practices across the globe but focusses particularly on regulatory solutions developed in Australia The book will be a useful reference to policy making and legal reforms to address vulnerabilities of gig workers [Tesla Carbon Pigs, Climate Change, Environmental Equity and Liberal Democracy](#) Peter Thalheim,2023-08-28

Read how the typical TESLA electric vehicle driver is more affluent than the average citizen and consumes considerably more carbon to live their comfortable lives at their first or second home with their private clubs take out food household staff extensive vacations etc The vow of poverty to immediately aid our environment is not in the cards for these carbon pigs or for the rest of us for that matter Most of us fall short between our personal consumption habits and our public persona expressing concern for our environment Read how amazon prime is unsustainable at any speed of delivery as other delivery options albeit slower are already in your neighborhood Read about various strategies of solar wind hydrogen fusion fuels and others to ameliorate our stress on the environment living our comfortable and consumptive lifestyles which include cell phones laptops and social media We should do whatever we can for the environment provided it does not raise the cost of living for the poor They should not bear the brunt of greenwashing the environmental conscience of our betters those with a higher net worth and or higher education degree than the rest of us Eliminating the United States economy from the world's ecosystem would have a negligible impact on preventing the rise in average global temperature of 1.5 degrees Celsius proposed by the Paris Climate Accord by the year 2100 yet the United States is imperative for the liberal democratic project of expanding the Rule of Law to more of our brother and sister citizens around the globe versus Rule of Man totalitarian regimes like China and Russia who care not for international rules and norms of conduct You decide [Food, Philosophy, and Intellectual Property](#) Enrico Bonadio,Andrea Borghini,2024-05-08

This is a book about food philosophy and intellectual property rights Taken separately these are three well known subjects but it is uncommon to consider them together The book comprises 50 case studies organized around eight themes images genericity and descriptiveness language traps procedures menus recipes and creativity boundaries biotech and empowerment The introductory chapter frames the selection of cases and encourages readers to look beyond them envisaging new lenses to look at food vis vis intellectual property The terrain encompassed is wide ranging and reaches out to fine grained aspects of food products recipes and cooking Conceived for a wide scope of readers the volume ultimately interrogates the links between food and cultural identity bringing to the fore the ethical political and aesthetic worth of culinary arts and gastronomic experiences This accessible book will be of value to scholars students practitioners and others with interests in the areas of intellectual property food law and food studies [Uber](#) B. Yasanthi Perera,Pia A. Albinsson,2020-01-16 Uber is one of the most innovative companies of our time This book provides a detailed analysis of the company and its success and goes beyond the

headlines about safety and culture. Many of us are so accustomed to using Uber today that the name of the innovative ride sharing company has become a verb as in to Uber somewhere and yet Uber has been around only since 2010. Uber has disrupted the ride hailing industry from making it easier and more affordable to become an Uber driver than a cab driver to rating riders as well as drivers. As an early pioneer in using technology to create a new business model and new efficiencies, Uber is considered one of the most important case studies in the sharing economy. However, little in-depth information exists on this innovative company. This book traces Uber's origin and evolution in the face of competitive pressures, discusses the company leadership and corporate culture, addresses such controversies as rider and driver safety and sexual harassment of female employees, and explores how the company is addressing these challenges. Students of business entrepreneurs and anyone interested in the development and exponential growth of the sharing economy will benefit from reading this book.
