Read the short passage and answer the questions.

## The Dog and the Shadow

It happened that a Dog had got a piece of meat and was carrying it home in his mouth to eat it in peace. Now on his way home, he had to cross a plank lying across a running brook. As he crossed, he looked down and saw his own shadow reflected in the water beneath. Thinking it was another dog with another piece of meat, he made up his mind to have that also. So he made a snap at the shadow in the water, but as he opened his mouth the piece of meat fell out, dropped into the water and was never seen more.

## **Reading Comprehension Latest Sign In:**

**Sign Language in Mainstream Education for the Deaf and Hard-of-hearing Students in Asia** Gladys Tang, 2025-05-23 This book focuses on two means of recruiting sign language to support DHH students in mainstream education in Asia. The first approach is educational sign interpreting which has been adopted to support signing DHH students in mainstream classrooms in Taiwan. Contributions report on a questionnaire survey with post hoc interviews examining the reactions of students, parents, a resource teacher, and an interpreter towards providing this service in the education system. The second approach is co-enrolment which involves bringing a critical mass of DHH students into the mainstream classroom for them to study with hearing children supported by either a deaf teacher or a teacher highly proficient in signing who co-teaches with a regular teacher and co-shares responsibilities in taking care of the whole class of students. The chapters exemplifying this approach report on the effects of co-enrolment on DHH students' language development and academic attainment. This book was originally published as a special issue of *Deafness Education International*.

**Reading Comprehension and Skills, Grade 4**, 2014-03-15 Reading Comprehension and Skills for fourth grade is designed to help students develop a strong foundation of reading basics so that they will become competent readers who can advance to more challenging texts. It includes engaging passages and stories about a variety of subjects to appeal to all readers. The book also encourages vocabulary development and reinforces reading comprehension through leveled activity pages that target each student's individual needs for support. Kelley Wingate's Reading Comprehension and Skills series is the perfect choice for both teachers and parents. This valuable reading and comprehension skills practice book provides nearly 100 reproducible pages of exciting activities, 96 durable flash cards, and a motivating award certificate. The differentiated activity pages give students the practice they need at a level that is perfect to help them master basic reading comprehension skills necessary to succeed and are great for use at both school and home.

***Signs for Developing Reading*** Emil Holmer, 2016-05-23 Reading development is supported by strong language skills, not least in deaf and hard of hearing DHH children. The work in the present thesis investigates reading development in DHH children who use sign language attend Regional Special Needs Schools (RSNS) in Sweden and are learning to read. The primary aim of the present work was to investigate whether the reading skills of these children can be improved via computerized sign language based literacy training. Another aim was to investigate concurrent and longitudinal associations between skills in reading sign language and cognition in this population. The results suggest that sign language based literacy training may support development of word reading. In addition, awareness and manipulation of the sub-lexical structure of sign language seem to assist word reading and imitation of familiar signs, i.e. vocabulary, may be associated with developing reading comprehension. The associations revealed between sign language skills and reading development support the notion that sign language skills provide a foundation for emerging reading skills in DHH signing children. In addition, the results also suggest that working memory and

Theory of Mind ToM are related to reading comprehension in this population Furthermore the results indicate that sign language experience enhances the establishment of representations of manual gestures and that progression in ToM seems to be typical although delayed in RSNS pupils Working memory has a central role in integrating environmental stimuli and language mediated representations and thereby provides a platform for cross modal language processing and multimodal language development En god spr klig f rm ga bidrar till god l sutveckling inte minst hos d va och h rselkadade D H barn Studierna som ing r i avhandlingen unders ker l sutveckling hos D H elever som g r p teckenspr kiga specialskolor och som h ller p att l ra sig att l sa Arbetets huvudsakliga syfte var att unders ka om deras l sf rm ga kan f rb ttras via datoriserad teckenspr ksbaserad l str ning Ett annat syfte var att unders ka samtida och longitudinella samband mellan l sf rm ga teckenspr k och kognition i samma population Resultaten indikerar att teckenspr ksbaserad l str ning kan bidra till ordl sningsutveckling Vidare pekar resultaten p att medvetenhet om och manipulation av teckenspr kets sublexikala struktur st ttar l sf rm gan och dessutom att imitation av k nda tecken i e vokabul r var associerat med utvecklingen av barnens l sf rst else Dessa fynd visar att teckenspr kskunskaper kan utg ra en grund f r l sutveckling hos teckenspr kiga D H elever Resultaten indikerade ven att arbetsminne och Theory of Mind ToM r relaterade till l sf rst else i denna grupp Vid sidan av resultaten r rande l sutveckling framkom ocks att teckenspr kserfarenhet leder till starkare etablering av representationer av manuella gester och vidare att barnens mentaliseringsf rm ga Theory of Mind uppvisade en f rv ntad progression om n f rsenad En implikation av detta r att insatser som st ttar utveckling av teckenbaserade representationer och deras anv ndning vid bearbetning av skrivet spr k kan fr mja l sutveckling hos teckenspr kiga D H elever Arbetsminne f resl s genom sin roll i integration mellan inkommande stimuli och spr kmedierade representationer fungera som en plattform f r modalitets verskridande spr kbearbetning och multimodal spr kutveckling

Divination as Science Jeanette C. Fincke, 2016-06-21 There is no doubt that Ancient Near Eastern divination is firmly rooted in religion since all ominous signs were thought to have been sent by gods and the invocation of omens was embedded in rituals Nonetheless the omen compendia display many aspects of a generally scientific nature In their attempt to note all possible changes to the affected objects and to arrange their observations systematically for reference purposes the scholars produced texts that resulted in a rather detailed description of the world be it with respect to geography the urban or rural environment on earth or celestial and meteorological phenomena observed in the sky biology the outer appearance of the bodies of humans or animals or the entrails of sheep sociology behavior of people or others Based on different divination methods and omen compendia the question discussed during this workshop was whether the scholars had a scientific approach presented as religion or whether Ancient Near Eastern divination should be considered purely religious and that the term science is inappropriate in this context The workshop attracted a large audience and lively discussion ensued The

papers presented in this volume reflect the focus of the sessions during the workshop and are likely to generate even more discussion now that they are published
