Here, a leading Silicon Valley investor argues that blockchains, the radically free and democratic new type of software design that underpins web3, could return financial and decision-making power to the internet's users. For the first time, we won't just read and write on the internet; we will own it, too. A must for anyone who wants to better understand the real potential of blockchains and web3. Bob Iger, CEO, Disney. A refreshing and radical new take at a time when we need fresh thinking more than ever. Mustafa Suleyman, co-founder of DeepMind and author of *The Coming Wave*.
