[The Learning and Teaching of Reading and Writing](#) Naomi Flynn, Rhona Stainthorp, 2006-07-11 This book provides a unique description of teacher-pupil interaction during the Literacy Hour in good schools. It is based on detailed observations in inner city primary schools that were recognised as effective and improving. The analysis is informed by contemporary research into the development and teaching of early literacy. The book provides practice-based examples of how teachers and schools might adapt their delivery for literacy as they move to greater creativity in their teaching of reading and writing. The analysis begins within the classrooms of three expert Key Stage 1 teachers and broadens out into the wider setting of the schools and their

senior management teams An important theme running throughout the book is how the three teachers were able to make exceptional provision for their pupils who were largely second language speakers and from socio economically disadvantaged groups The teachers successful practice grew from their understanding of both early literacy development and planning for individual need The information in this book will enable student teachers recently qualified teachers and teachers interested in enhancing their literacy teaching to develop their practice in a similarly successful way
