Marketing Case Studies in Emerging Markets

Dilip S. Mutum,Soo Yeong Ewe,Ezlika M. Ghazali,Racheal Louis Vincent,2024-04-01 There is an increasing interest in emerging markets because of the higher economic growth rates compared to developed economies However these markets have a diverse consumer base with unique needs and preferences As a result companies in these markets face different challenges and opportunities Unfortunately there is a lack of marketing cases from these markets This book presents actual real world marketing cases in these markets offering an in depth look at some of the issues faced by companies in different industries It is hoped that the cases would serve as valuable reference material for academics students professionals in marketing business strategy and other related fields as well as policymakers to better understand the challenges of these markets and develop strategies to succeed in them

Riding the Energy Transition

Reda Cherif,Fuad Hasanov,Aditya Pande,2017-05-22 Recent technological developments and past technology transitions suggest that the world could be on the verge of a profound shift in transportation technology The return of the electric car and its adoption like that of the motor vehicle in place of horses in early 20th century could cut oil consumption substantially in the coming decades Our analysis suggests that oil as the main fuel for transportation could have a much shorter life span left than commonly assumed In the fast adoption scenario oil prices could converge to the level of coal prices about 15 per barrel in 2015 prices by the early 2040s In this possible future oil could become the new coal

Kurani,2016 The Business Week ,2007-07 **Automotive Industry Analysis. The Chinese and American Market,**

Competitors Jan Kachelmaier,2017-07-17 Research Paper undergraduate from the year 2016 in the subject Business economics Industrial Management grade 3 7 93% California State University Fullerton language English abstract The paper analysis the automotive industry in general as well as the relative position of the Volkswagen AG Furthermore VW s competitors are assessed and recommendations for actions are formulated In the beginning the creation of the automobile seemed less of a need and more of a luxury as the cars could only be afforded by the well off The very first steam car took to the road in France in 1768 but Cugnot s novel idea did not trigger the beginning of the car industry After Henry Ford s model made its debut owning a car was a symbol of status because it could only be afforded by the wealthy Once the process of Henry Ford s mass production was introduced cars could be afforded by a wider dynamic of people and ownership became an

affordable growing trend The production of automobiles was a great help to the economy It provided jobs across industries including positions in steel and machine tool makers for the different metal parts of the car The increase in the need of supplies and other parts of the car including the battery head lights paint and interior upholstery were the driving forces for new businesses to thrive Cars being a part of the everyday norm meant they would need routine car maintenance which became a major source of business This also led to the increase of petroleum sales as the demanded use of cars increased When WWII came the US was able to use the jeep for military use additionally Chrysler reworked the jeep design to create tanks Moreover car production in Europe turned its focus from the people's car to cars designed for the military *The Dynamics of Plug-in Electric Vehicles in the Secondary Market and Their Implications for Vehicle Demand, Durability, and Emissions* Thomas Turrentine, Gil Tal, David Rapson, 2018 *Tesla's Market Entry Strategy in Germany. Foreign Market Entry and Cross-Cultural Business* Simon Glandien, 2020-11-18 Academic Paper from the year 2020 in the subject Business economics Business Management Corporate Governance grade A course Cross Cultural Business language English abstract The purpose of this paper is to analyze and evaluate the market entry of Tesla Inc in Germany In November 2019 Tesla revealed to build a European production plant on the outskirts of Berlin in Germany The aim of this paper is to give account to the foreign market entry of Tesla Inc in Germany This leads to the following research question that guides this paper What could be business success factors and threats of Tesla's strategy to enter the German automotive industry market Tesla Inc former Tesla Motors Inc is a car manufacturer and sells fully electric vehicles energy storage systems as well as installs operates and maintains solar and energy storage products Reuters and The company was founded in 2003 by a group of engineers In 2008 Tesla launched their first electric vehicle to the market Tesla and Tesla's mission is to accelerate the world's transition to sustainable energy so the car manufacturer So far most of the Tesla vehicles are produced and assembled in the United States at its main Tesla Factory in Fremont California To that Tesla operates other multiple production and assembly plants named Gigafactory such as in Fremont California Giga Nevada and in Buffalo New York Giga New York Recently in 2019 Tesla opened its first Gigafactory outside the American region in Shanghai China Giga Shanghai A strategic step to internationalize the company and to enter the Chinese market This strategic action can be explained by the fact that China is the largest car market in the world and the government is speeding up the expansion of electric mobility Furthermore manufacturing in Shanghai saves Tesla from having to transport its vehicles overseas and avoids import duties incurred in China for cars from the United States However the company is not just expanding its manufacturing into China

Short Wave Craft, 1937 **Designing the Future: How Ford, Toyota, and other World-Class Organizations Use Lean Product Development to Drive Innovation and Transform Their Business** James M. Morgan, Jeffrey K. Liker, 2018-10-26 How companies are using lean development to revolutionize their product and service offerings. Vital lessons any business leader can use as an engine of innovation. How did Ford Motors use Lean Development to pull off one of the most impressive corporate turnarounds in history? Largely by avoiding the mistakes that so many companies make when in a death spiral. They looked beyond manufacturing efficiency to change the very fundamentals of how they developed vehicles. In *Designing the Future*, lean product development expert James Morgan and world-renowned lean guru Jeffrey K. Liker reveal why so many companies have achieved only moderate success with lean in operations with a limited impact on their overall business. They take you through the process of bringing the best of lean management to your enterprise in order to link your business strategy to superior value designed for customers. The authors provide an actionable approach to building a better future for your business, fueled by an iterative, integrated process that relies on simultaneous engineering, linking strategy and vision. They illustrate how to empower skilled and talented people to make collaboration and innovation a habit, hour to hour and day to day. It's the secret of full implementation of lean and this groundbreaking guide takes you
