This book explores how postmillennial Anglophone women writers use romantic narrativisations of history to explore revise repurpose and challenge the past in their novels exposing the extent to which past societies were damaging to women by instead imagining alternative histories The novelists discussed employ the generic conventions of romance to narrate their understanding of historical and contemporary injustice and to reflect upon women's achievements and the price they paid for autonomy and a life of public purpose The volume seeks firstly to discuss the work of revision or reparation being performed by romantic historical fiction and secondly to analyse how the past is being repurposed for use in the present It contends that the discourses and genre of romance work to provide a reparative reading of the past but there are limitations and entrenched problems in such readings

Stereotypical Indians Eric Hannel, Karen Hannel, 2025-02-28 This scholarly yet provocative work critically examines the persistent and evolving stereotypes of Native Americans in popular literature spanning from the 19th to the 21st centuries The book meticulously traces the roots of these portrayals exploring their proliferation and their lasting impact on public perception and policy Each chapter unveils a new layer of complexity from the dime novels of the 1800s that painted Native Americans as savages to children's literature that enforced colonial narratives and onto romance novels and popular histories that perpetuated myths and misconceptions The authors dissect these narratives critically revealing how they contribute to a distorted understanding of Native American heritage and culture Through an in depth analysis of various literary genres including comics and graphic novels the book challenges readers to confront and rethink the deeply ingrained stereotypes that have long shaped American consciousness

Love, Language, Place, and Identity in Popular Culture María Ramos-García, Laura Vivanco, 2020-01-31 *Love Language Place and Identity in Popular Culture* Romancing the Other explores the varied representations of Otherness in romance novels and other fiction with strong romantic plots Contributors approaches range from sociolinguistics to cultural studies and the texts analyzed are set on four continents with particular emphasis on Caribbean and Atlantic islands What all the essays have in common is the exploration of representations of the Other be it in an inter racial or inter cultural relationship Chapters are divided into two parts the first examines place travel history and language in 20th century texts while the second explores tensions and transformations in the depiction of Otherness mainly in texts published in the early 21st century This book reveals that even at the end of the 20th century these texts display neocolonialist attitudes towards the Other While more recent texts show noticeable changes in attitudes these changes can often fall short as stereotypes and prejudices are often still present just below the surface in popular novels The understudied field of popular romance in which the Other is frequently present as a love interest proves to be a fruitful area in which to explore the potential and the realities of the treatment of Otherness in popular culture Scholars of literature communication
