Natural Awakening An Advanced Guide For Sharing Nondual Awareness

Natural Awakening An Advanced Guide For Sharing Nondual Awareness:

Natural Awakening Peter G. Fenner, 2015-06 When crystallized identities enter a nondual field of awareness and begin to interact with a being embodying that state suffering can't be sustained. It dissolves into a space where there is neither suffering nor its absence. Nondual awareness creates a transformational field or vortex that gently or abruptly but irrevocably moves people into radiant awareness. This is the paradoxical state that bodhisattvas play in for eternity. This Guide goes behind the curtains of Dr. Peter Fenner's highly distinctive nondual teachings. It reveals in great detail and clarity the subtle and sometimes mysterious skillful methods he uses in his workshops, trainings, public presentations, and coaching to swiftly awaken people to the liberating freedom of nondual panoramic awareness. Peter has a unique ability to reflect on the deep processes involved in his nondual transmission, especially the nuances of language, deep feelings, and silence. He is well known for the rigor, precision, and organic flow of his unfindability dialogues. The skills he reveals in this Guide are many of the very same methods used by Dzogchen masters, Zen roshis, and Advaita sages in pointing out events and mind-to-mind transmission. Peter's teaching has been described by others as free form, continuous pointing to awareness. In Buddhism, nondual awareness is often called the ultimate medicine because no higher evolutionary accomplishment is possible for any conscious being living anywhere at any time. When we see everything as the seamlessly changing fabric of immutable, unfindable awareness, it's impossible to be negatively touched by any environmental circumstance or inner perturbation. We move into the realm of embodied transcendence beyond disturbances and conditioned forms of peace. In this Guide, Peter often shares at the result or fruition level. He shows us how comprehensive awakening is our natural state that infuses and embraces the totality of existence whenever we let go of personal striving, ambition, fantasies, hopes, fears, and self-judgment. At this level, our familiar preoccupations transform into a blissful and exquisite mandala that's completely free of the narrow concerns of a self-absorbed life. The neurotic energies and paranoid projections that shape samsaric existence self-liberate into a panoramic clearing that supports evolutionary transformation throughout the universe. In this Guide, Peter outlines everything he has discovered in 42 years of teaching. The Guide is especially useful for facilitators, therapists, and coaches as it powerfully accelerates the integration on the nondual in a form that lends itself to the public sharing of pure awareness. Part One is a virtual manual for spiritual teachers, therapists, and coaches in how to introduce groups and clients to the ultimate state of healing and being pure, pristine, timeless awareness. Part Two traces Peter's contemporary expression of nonduality and more especially his well-known Radiant Mind course through to its Asian origins. **Ending the Search**

Radiant Mind Peter Fenner, PhD, 2007-07-01 Whether it is called enlightenment pure presence or unconditioned awareness there exists an awakened state of true liberation that is at the heart of every contemplative tradition Yet according to Peter Fenner this experience of boundless consciousness does not have to exist separately from your day to day conditioned existence Rather you can learn to live as a unique individual at the same time as you rest in a unified expanse of oneness with all existence in a state he calls Radiant Mind Students in the West often feel frustrated in trying to follow the Eastern path to awakening confused by seemingly vague or counterintuitive teachings Peter Fenner created the Radiant Mind practice to help you break through the obstacles that are often challenging for practitioners in our culture Drawing upon his background in both Eastern spirituality and Western psychology Fenner brings you a precise step by step approach to nondual practice that includes How to observe and dissolve fixations to live in the here and now without being controlled by your desires Practices to deepen and stabilize your experience of presence until it becomes second nature Communication as a path to openness for you and those around you Tools for identifying your conscious and unconscious sources of suffering and learning to transcend those patterns and much more

Identifying Nonduality John Sefton,2021-07-28 Awakening to our nondual nature is possible without traversing an immense path and without exiting our everyday life Since having a nondual realization in 2004 the author has studied and practiced many contemplative traditions including Zen Dzogchen Mahamudra Christian Mysticism Taoism and Advaita Vedanta The crucial lesson that was learned is that when we seek nondual awareness through sheer force that becomes the obstruction to its realization What this book offers is a way to transform the energy of seeking into direct recognition itself We ll discover that the ultimate state of being that we ve been searching for is always self existent and present as our own awareness The key step is for us to be able to immediately and directly wake up to this pure presence and that is what s revealed in this book
