## **New Testament Exposition From Text To Sermon:**

*New Testament Exposition* Walter L. Liefeld, 1989-06-13 Expository preaching is an elusive ideal. Many preachers aspire to it, but few are acknowledged masters. For most, a gap exists between the sermon that addresses the needs of the hearers and one that methodically plumbs the depths of Scripture. New Testament Exposition is written to bridge this gap and bring together the disciplines of preaching and exegesis. In this book, Liefeld addresses the three main concerns of expository preaching: What is the text saying? How can its message be communicated in ways that are appropriate to the passage, the seeing, and the goals of the sermon? How can the message meet the real needs of the congregation in a way that is consistent with the purpose and function of the text? This book demonstrates how these concerns can be brought together in a sermon, and it is this thoughtful practical approach that makes the book so valuable to preachers and seminarians.

The book is divided into three parts. Part I explores the characteristics of expository preaching. Part II deals with preparing the text and addresses such areas as practical exegesis, exegetical outlines, narratives, and compositional patterns, semantic patterns, and underlying assumptions of the text. Part III discusses application of the text by asking: What is the function of the text? What are the needs of the congregation? How can one preach to inner heart needs as well as to the external circumstances facing the congregation? New Testament Exposition is not vague theory nor is it esoteric study beyond the grasp and time of the busy pastor. Throughout the book, Dr. Liefeld reflects his experience in the classroom and pulpit, and his concerns as scholar and pastor are clearly seen in the final chapters of this volume. Chapter 9 examines preaching from difficult texts: How might one handle parables, miracle stories, obscure passages, culturally related texts? The final chapter provides a demonstration of all that is discussed throughout the book by walking the reader through the actual preparation for a sermon.

*New Testament Exposition* Walter L. Liefeld, 1984 This study examines some key approaches to ecumenical social ethics in the past century as expressed in the thought of Walter Rauschenbusch, Reinhold Niebuhr, and the World Council of Churches. The author argues that unless Christians are clear about the ways that theology and philosophy relate to one another and work themselves out in our practical commitments, we will lose the ability to discuss social ethics as individuals and churches let alone reach effective arguments.

**New Testament Abstracts**, 1985 **Interpretation for Preaching and Teaching** Stanley E. Porter, 2023-08-08 Renowned biblical scholar Stanley Porter offers an accessible introduction to hermeneutics to help students and pastors better interpret and understand God's Word. Interpretation for Preaching and Teaching focuses on various levels of interpretation and proclamation, which are arranged in a necessary hierarchy: language and linguistics, the biblical text, biblical theology, systematic theology, and homiletics. Stanley Porter grounds the discussion within a conversation

of biblical authority and offers a fresh examination of the key issues The result is a workable method that introduces each of the major topics of interpretation and addresses some of the complexities of their use This book provides the basics for a Bible interpreter to move from fundamental questions about the task of biblical interpretation to understanding a text and its theology to creating and delivering a sermon It offers valuable guidance for professors and students of hermeneutics and equips pastors and Bible teachers to deliver a relevant message to those who rely on them to be faithful interpreters
