## Notes History Pennsylvania Classic Reprint:

*David Hume* Mark G. Spencer, 2013-11-15 This volume provides a new and nuanced appreciation of David Hume as a historian. Gone for good are the days when one can offhandedly assert as R G Collingwood once did that Hume deserted philosophical studies in favour of historical ones. History and philosophy are commensurate in Hume's thought and works from the beginning to the end. Only by recognizing this can we begin to make sense of Hume's canon as a whole and see clearly his many contributions to fields we now recognize as the distinct disciplines of history, philosophy, political science, economics, literature, religious studies and much else besides. Casting their individual beams of light on various nooks and crannies of Hume's historical thought and writing, the book's contributors illuminate the whole in a way that would not be possible from the perspective of a single authored study. Aside from the editor, the contributors are David Allan, M A Box, Timothy M Costelloe, Roger L Emerson, Jennifer Herdt, Philip Hicks, Douglas Long, Claudia M Schmidt, Michael Silverthorne, Jeffrey M Suderman, Mark R M Towsey and F L van Holthoorn.

**Cumulative, 1950-1977** R.R. Bowker Company. Department of Bibliography,1978 *Information and Empire* Simon Franklin,Katherine Bowers,2017-11-27 From the mid sixteenth to the mid nineteenth century Russia was transformed from a moderate sized land locked principality into the largest empire on earth How did systems of information and communication shape and reflect this extraordinary change Information and Mechanisms of Communication in Russia 1600 1850 brings together a range of contributions to shed some light on this complex question Communication networks such as the postal

service and the gathering and circulation of news are examined alongside the growth of a bureaucratic apparatus that informed the government about its country and its people The inscription of space is considered from the point of view of mapping and the changing public graphosphere of signs and monuments More than a series of institutional histories this book is concerned with the way Russia discovered itself envisioned itself and represented itself to its people Innovative and scholarly this collection breaks new ground in its approach to communication and information as a field of study in Russia More broadly it is an accessible contribution to pre modern information studies taking as its basis a country whose history often serves to challenge habitual Western models of development It is important reading not only for specialists in Russian Studies but also for students and non Russianists who are interested in the history of information and communications
