## Medical, Legal, and Ethical Issues

- 1978: National Association of Emergency Medical Technicians (NAEMTs) adopted the EMT Code of Ethics
- Providing for the well-being of the patient by rendering necessary interventions outlined in the scope of practice
- Legal duties are defined by state legislation and are enhanced by medical direction through the use of protocols and standing orders
- Legal right to function as an EMT is contingent upon the following:
  - Medical direction
  - Telephone/radio communications
  - Approved standing orders/ protocols
  - Responsibility to medical direction

When in doubt or when written orders are not present, the EMT should begin resuscitation efforts; contact medical control for definitive direction

### Forms of Consent:

- Expressed Consent: Patient must be of legal age and able to make rational decision; Must be informed of the steps of the procedures and all related risks;

Consent must be obtained from every conscious, mentally competent adult before rendering any treatment

- Implied Consent: Consent assumed from the unconscious patient requiring emergency intervention; Based on the assumption that the unconscious patient would consent to life-saving interventions
- Children/Mentally Incompetent Adults: Consent for treatment must be obtained from parent or legal guardian; When life-threatening situations exist, and parent or legal guardian is not available, emergency treatment should be rendered based on implied consent.
- Assault/ Battery: Charged when proper consent is not elicited; Unlawfully touching a patient without their consent; Providing emergency care when the patient does not consent to the treatment.
- Patient has the right to refuse treatment
- The patient may withdraw from treatment at any time; refusals must be made by mentally competent adults
  - Patient must be informed of and fully understand all the risks and consequences associated with refusal of treatment/ transport
  - Must sign "release from liability" form
  - When in doubt, err in favor of providing care
