The ATI TEAS is already the most widely used nursing school admission exam in the U S and is now also used for allied health program admission nationwide. REA's ATI TEAS Crash Course is aligned with the most recent exam changes to the TEAS or Test of Essential Academic Skills. Our ATI TEAS Crash Course features easy to read review chapters that cover every exam objective in reading, mathematics, science, and English and language usage. The new ATI TEAS allows for one unified test to cover BSN, ADN, PN, and Allied Health programs. The ATI TEAS test blueprint has been revised to align with evolving developments in the nursing field and the curriculum, creating different points of emphasis on the test. In addition, the number of questions allotted to each content area has been changed, and examinees now may use an on-screen calculator.

Mathematics, 2004 **Macmillan/McGraw-Hill Math: Teacher ed., v. 1**, 2004 **Houghton Mifflin Math Central: Student text**, 1998 Glencoe Mathematics, 2001 **Statistics for the Behavioral Sciences** James Jaccard, Michael A. Becker, 2002. Now your students can become intelligent consumers of scientific research without being overwhelmed by the statistics. Jaccard and Becker's text teaches students the basic skills for analyzing data and helps them become intelligent consumers of scientific information. Praised for its real life applications, the text tells students when to use a particular statistic, why they should use it, and how the statistic should be computed and interpreted. Because many students given a set of data cannot determine where to begin in answering relevant research questions, the authors explicate the issues involved in selecting a statistical test. Each statistical technique is introduced by giving instances where the test is most typically applied, followed by an interesting research example. Each example is taken from psychology literature.
