Food as Medicine Andrea K. Boggild ,Micaela Cook Karlsen, 2024-10-22 Let food be thy medicine a mantra famously attributed to Hippocrates captures the central role of nutrition and dietary patterns in human health Not only is the food we consume linked to prevention of diseases of dietary deficiency such as scurvy pellagra and Kwashiorkor so too is it related to diseases of caloric abundance such as type 2 diabetes obesity and hypertension Moreover patterns of food consumption are increasingly linked to restoration of health and maintenance of disease free states following diagnoses such as cardiovascular disease stroke and cancer Finally our ever expanding knowledge of the human microbiome s role in health and disease continues to implicate patterns of food consumption to microbial diversity and function and their impact on mood cognitive status and metabolic health Never has the scientific examination of Hippocrates famous tenet been more timely and needed Food As Medicine is complementary to the field of lifestyle medicine

which promotes health behavior change across six domains including nutrition exercise sleep stress or substance use exposure to prevent treat and potentially reverse lifestyle related chronic disease Functional Foods and Chronic Disease Michel Aliani, Michael N.A. Eskin, 2024-03-20 Functional Foods and Chronic Disease Role of Sensory Chemistry and Nutrition explores the range of functional foods that are effective against a wide range of chronic diseases and addresses the impact of functional food bioactive compounds on organoleptic properties Beginning with an introduction that details the key sensory and advanced instrumental methods essential for addressing the common problems associated with designing functional foods the book also addresses the impact of aging and chronic diseases on sensory acuity as well as the effectiveness of functional foods in treating a wide range of chronic diseases Sections highlight the need for acceptable functional foods for individuals suffering from a wide range of chronic diseases and contain practical recommendations for their development Food scientists nutritionists dietitians food product developers food supplement producers food ingredient developers natural product scientists herbalists and pharmacists as well as students studying related areas will benefit from this important resource Highlights the need for acceptable functional foods for individuals suffering from a wide range of chronic diseases Includes case studies applications literature reviews and a summary of recent developments in the field Provides suggestions for improving the organoleptic properties of functional foods *The Medical examiner, ed. by O.
