

Sight Words— Reading Comprehension

Objective Sight words (breakfast, lunch, dinner, snack, serve, service); concepts (restaurant, menu, order, tip)

Vocabulary	
breakfast	snack
lunch	serve
dinner	service

A Restaurant

By: Sue Peterson

You can go to a restaurant to eat breakfast, lunch, or dinner and even a snack when you want. Restaurants serve food to you and to other people who go and eat at them. First, you look at a menu that lists all of the foods and drinks that you can order from the restaurant.

Then you tell the waiter or waitress what you want to eat and drink. A "waiter" is the word you use for a man and a "waitress" is the word you use for a woman. Those are the people who take your order and bring you your food.

Restaurants cook the food you order. Some restaurants have lots of foods and some have some foods like only salads or soups, hotdogs or desserts. Some restaurants are open part of the day and only serve food at some times of the day. Other restaurants are open all day and serve food all the time.

Yearbooks are designed to assist professionals in selecting and using standardized tests. The series initiated in 1938 provides factual information, critical reviews, and comprehensive bibliographic references on the construction, use, and validity of all tests published in English. The objectives of the Mental Measurements Yearbooks have remained essentially the same since the publication of the series. These objectives include provision to test users of factual information on all known tests published as separates in the English-speaking countries of the world; candidly critical test reviews written for the MMY series by qualified professional people representing a variety of viewpoints; unique publication of each volume in the MMY series with new volumes supplementing rather than supplanting previous series volumes. Each yearbook is a unique publication supplementing rather than supplanting the previous volumes. The ninth edition of this widely acclaimed reference work is the most comprehensive yearbook to date. It includes 1,409 commercially published tests, 19% more than in The Eighth Mental Measurements Yearbook; detailed descriptive information about each test; 1,266 original reviews, 41% more than in The Eighth Mental Measurements Yearbook; prepared by 660 well-qualified professional reviewers and extensive references on specific tests including those selected by Bureau of Education staff and those selected by reviewers. The tests are listed in alphabetical order for easy reference. The volume also features a state-of-the-art essay on Mental Measurement: Some Emerging Trends by Dr. Anne Anastasi, a leading figure in the field of measurement. Indexes to the volume are an Index of Titles with cross references and identification of new and revised tests; an Index of Acronyms; a Classified Subject Index; a Publisher's Directory and Index which includes publisher names and addresses and test listings by publisher; and an Index of Names and an innovative Score Index which refers readers to tests featuring particular kinds of scores that are of interest to them. Widely regarded as the bible of testing, the Mental Measurements Yearbook is an indispensable reference work. The Ninth Mental Measurements Yearbook continues and extends this proud tradition of excellence in providing service to test users.

200 Write-And-Learn Sight Word Practice Pages Scholdeniers, 2019-09-27. The Most Effective Way to Master the 200 Sight Words Essential to your Child's Reading Writing Success. From the trusted name in children's education worldwide comes the biggest and most comprehensive sight word learning and practice workbook. Once your child has mastered these key words, they will read far more fluently, write with greater ease, spell with increased accuracy, boost reading comprehension, accelerate language learning, and why your child MUST master sight words. Sight words are a set of words that constantly appear on almost any page of writing, such as who, does, come, we. They are the building blocks of written language. However, many sight words cannot be sounded out because they do not follow the standard rules of spelling. The child has to memorize sight words as a whole by sight so that they recognize them immediately without having to decode the spelling. The problem is that minimal instruction is given by teachers and parents. Often, little more is done than showing the word to the child and telling them what it is. However, for many children, this is not nearly enough. As a result, their reading and comprehension of these crucial words is lacking, which significantly brings down their overall reading ability. Scholdener
