Technical Support Essentials Andrew Sanchez, Karen Sleeth, 2010-09-08 Technical Support Essentials is a book about the many facets of technical support. It attempts to provide a wide array of topics to serve as points of improvement, discussion, or simply topics that you might want to learn. The topics range from good work habits to the way technical support groups establish their own style of work. This book applies theories, models, and concepts synthesized from existing research in other fields such as management, economics, leadership, and psychology and connects them to technical support. The goal is to build on the work of others and allow their success to evolve the profession. The book's broad perspective looks at proven practices, legal issues dealing with customers, utilizing resources, and an array of other topics of interest to tech support professionals.

Entrepreneurship Research Vanessa Ratten, 2023-08-22 This book explores how the COVID-19 pandemic has changed entrepreneurial business practices and policies. The role of digitalization and de-internationalisation as part of entrepreneurial business thinking is discussed in this book as a way of keeping track with new research avenues. Due to the fundamental way the COVID-19 pandemic shocked and surprised entrepreneurs, it becomes important to develop new business patterns. The discussion in this book centres on the question: how has business practice changed in the post-COVID-19 era, and what needs to be learnt? Each chapter in this edited book presents a different way to understand these changes and make sense of alterations in the global business environment, thereby ensuring that business academics, policy makers, and practitioners are kept abreast of changes. Whilst there have been books on the COVID-19 pandemic, this book goes a step further by presenting new research into the post-COVID-19 pandemic era that is of a recent nature. This means it is amongst the first edited book to focus on patterns in terms of business, marketing, and management that have an entrepreneurial nature. This is helpful to gain a better nuanced and detailed understanding about the implications that are ongoing and future orientated arising from the COVID-19 pandemic.
