Mobile Repairing Handbook II Ram Babu Sao,2025-11-12 It gives me great pleasure and a sense of deep satisfaction to publish this book. Mobile Repairing Handbook II. Mobile technicians are skilled professionals who identify and repair issues related to mobile technology such as smartphones, tablets, and laptops. Mobile Repairing Technicians repair all types of smartphones and tablets, including iPhones, iPad, and Chinese smartphones. They repair both GSM hardware and software. They know the basics of electronics and go up to troubleshooting problems. As certified mobile technicians, they are required to provide troubleshooting and support to resolve the mobile operating issues of customers. They must perform safety audits to ensure the functionality of security mechanisms and compliance with the Occupational Safety and Health Administration (OSHA). Mobile technicians must also complete quality repairs on time to satisfy their customers. Mobile phone repair technicians run tests to assess the mobile phones' functionality, install and update the phone software, troubleshoot wiring problems, and replace damaged parts and components such as batteries, LCD screens, keypads, and buttons. They also advise their clients on warranty issues and recommend products based on their expertise. Mobile Phone Repairers are responsible for fitting, testing, analyzing, and repairing different kinds of mobile phones and smartphones. If they work for large retailers, they have to work nearly 9-10 hours daily or they may also work in shifts. If they are self-employed, they may set their work timings and income.
