and Break Things Jonathan Taplin,2017-04-20 A Financial Times Best Thing I Read This Year LONGLISTED FOR THE FT MCKINSEY BUSINESS BOOK OF THE YEAR AWARD Google Amazon Facebook The modern world is defined by vast digital monopolies turning ever larger profits Those of us who consume the content that feeds them are farmed for the purposes of being sold ever more products and advertising Those that create the content the artists writers and musicians are finding they can no longer survive in this unforgiving economic landscape But it didn t have to be this way In Move Fast and Break Things Jonathan Taplin offers a succinct and powerful history of how online life began to be shaped around the values of the entrepreneurs like Peter Thiel and Larry Page who founded these all powerful companies Their unprecedented growth came at the heavy cost of tolerating piracy of books music and film while at the same time promoting opaque business practices and subordinating the privacy of individual users to create the surveillance marketing monoculture in which we now live It is the story of a massive reallocation of revenue in which 50 billion a year has moved from the creators and owners of content to the monopoly platforms With this reallocation of money comes a shift in power Google Facebook and Amazon now enjoy political power on par with Big Oil and Big Pharma which in part explains how such a tremendous shift in revenues from creators to platforms could have been achieved and why it has gone unchallenged for so long And if you think that s got nothing to do with you their next move is to come after your jobs Move Fast and Break Things is a call to arms to say that is enough is enough and to demand that we do everything in our power to create a different future *The Perfect Thing*

Steven Levy,2006-10-23 On October 23 2001 Apple Computer a company known for its chic cutting edge technology if not necessarily for its dominant market share launched a product with an enticing promise You can carry an entire music collection in your pocket It was called the iPod What happened next exceeded the company s wildest dreams Over 50 million people have inserted the device s distinctive white buds into their ears and the iPod has become a global obsession The Perfect Thing is the definitive account from design and marketing to startling impact of Apple s iPod the signature device of our young century Besides being one of the most successful consumer products in decades the iPod has changed our behavior and even our society It has transformed Apple from a computer company into a consumer electronics giant It has remolded the music business altering not only the means of distribution but even the ways in which people enjoy and think about music Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself with commentators remarking on the iPod generation Now the iPod is beginning to transform the broadcast industry too as podcasting becomes a way to access radio and television programming Meanwhile millions of Podheads obsess about their gizmo reveling in the personal soundtrack it offers them basking in the social cachet it lends them even wondering whether

the device itself has its own musical preferences Steven Levy the chief technology correspondent for Newsweek magazine and a longtime Apple watcher is the ideal writer to tell the iPod's tale He has had access to all the key players in the iPod story including Steve Jobs Apple's charismatic cofounder and CEO whom Levy has known for over twenty years Detailing for the first time the complete story of the creation of the iPod Levy explains why Apple succeeded brilliantly with its version of the MP3 player when other companies didn't get it right and how Jobs was able to convince the bosses at the big record labels to license their music for Apple's groundbreaking iTunes Store We even learn why the iPod is white Besides his inside view of Apple Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright as well as his own travels on the iPod's click wheel to address all of the fascinating issues technical legal social and musical that the iPod raises Borrowing one of the definitive qualities of the iPod itself The Perfect Thing shuffles the book format Each chapter of this book was written to stand on its own a deeply researched wittily observed take on a different aspect of the iPod The sequence of the chapters in the book has been shuffled in different copies with only the opening and concluding sections excepted Shuffle is a hallmark of the digital age and The Perfect Thing via sharp insightful reporting is the perfect guide to the deceptively diminutive gadget embodying our era

Platformed! How Streaming, Algorithms and Artificial Intelligence are Shaping Music Cultures Tiziano Bonini, Paolo Magaudda, 2023-12-27 Grounded in more than a decade of field research this book uses empirical examples quantitative data and qualitative interviews with young music consumers as well as music industry professionals to understand how the platforms behind music production distribution and listening work in our digital society Bringing together the perspectives from science and technology studies media studies and the political economy of digital platforms the book outlines the process of mutual construction between music digital platforms and the cultural value of music in today's society and also reflects on the complicated relationship between the power of platforms and the agency of listeners

The Facebook Effect David Kirkpatrick, 2011-02 Kirkpatrick tells us how Facebook was created why it has flourished and where it is going next He chronicles its successes and missteps

The Four Scott Galloway, 2017-10-03

Four Scott Galloway, 2018-05-17 Amazon Apple Facebook y Google son las cuatro empresas más influyentes del mundo Casi todo el mundo cree saber cómo lo han logrado Y casi todo el mundo se equivoca Conoce su ADN secreto Las four Amazon Apple Facebook y Google cuyas valoraciones se aproximan ya a la escalofriante cifra del billón de dólares son los cuatro gigantes de la economía mundial Cómo han logrado esas compañías infiltrarse tan profundamente en nuestras vidas que ya es imposible evitarlas o incluso boicotearlas Por qué los mercados bursátiles les perdonan pecados que destruirían a cualquier otra empresa Puede alguien desafiarlas Con el estilo fresco y desenfadado que le ha convertido en uno de los más celebres profesores de negocios Scott Galloway disecciona las estrategias ocultas bajo la deslumbrante apariencia de estos cuatro gigantes y muestra cómo apelan a las necesidades básicas que han movido a la humanidad desde tiempos ancestrales Amazon a la de cazar y recolectar Apple a la de procrear Facebook a la de amar y Google a la de creer

en un Dios Y tanto si queremos competir como si queremos hacer negocios con ellas o simplemente sobrevivir en el mundo que dominan resulta imprescindible conocer el ADN secreto de esos cuatro jinetes de la economía mundial Escrito con rigor y amenidad el libro de Galloway ofrece un pormenorizado panorama de la economía a del mundo actual y del futuro que se avecina que no dejará indiferente a ningún lector y revela con ingenio cómo podemos aplicar las lecciones del ascenso de Amazon Apple Facebook y Google a nuestro propio negocio o carrera profesional. Reseña Una visión incisiva y estratégica de cómo unas pocas empresas están cambiando el mundo. Ante nuestros ojos pero fuera del radar. Lo que aquí se descubre es inquietante pero es mejor saberlo ahora que cuando sea demasiado tarde. Seth Godin autor de *Hazlo*. Un libro magnífico y provocador sobre dónde estamos y hacia dónde nos encaminamos. Phil Simon huffingtonpost.com Nunca volverás a mirar a estas cuatro empresas de la misma manera. Jonah Berger autor de *Contagioso*. Scott Galloway es claro, provocador y subversivo. La lectura de este libro desencadena una reacción de lucha o huida y estimula a pensar de otra manera. Calvin McDonald CEO de Sephora. Igual que hace en sus legendarias clases de MBA en este libro Galloway también dice las cosas como son y no se muerde la lengua a la hora de criticar a los titanes de la economía o a las grandes corporaciones. Un libro de obligada lectura. Adam Alter autor de *Irresistible*. Scott Galloway cabalga a lomos de los cuatro caballos del apocalipsis económico Apple Amazon Facebook y Google. Su libro es una imprescindible exposición de la naturaleza y de la concentración del poder en el mundo hoy y por ello mucho más que un libro de empresa. Tom Upchurch *Wired*

The Four

Scott Galloway, 2017-11-15 **IPod and ITunes For Dummies** Tony Bove, 2011-12-27 Looks at the basics of using a Mac covering such topics as the desktop, working with files and folders using Pages, playing movies, organizing photos, playing music, browsing the Internet and computer security
