**A GUIDE TO BEING AN EXTRAORDINARY STUDENT** Jeremia Lelosa, Mahlodi Kgatle, Morongwa Maifo, Sibusiso Gama, Treasure Mokalapa, Tieho Hans, 2017-03-04 This is an inspirational and motivational book for students at University and or College as well as those who have aspirations of furthering their studies at university and or college post matric. The contributors from various institutions of higher learning in South Africa share their secrets to success in this collection of experiences. Students in particular junior students will benefit immensely from the comprehensive coverage of core study skills and learning strategies presented in a straightforward and relatable manner. The book also helps students avoid academic exclusion and inspires them to achieve academic excellence. However this book does not only cover academic success. It also covers leadership and entrepreneurship which are necessary elements in today's fast and changing world. Unlike any other student success guide books that are currently on the market this book is unique and offers a broad perspective from many students. This book was written by leaders of Faculty of Best Advisory FBA published and is distributed by Club Readership.

**Higher Education ICT Integration in Africa** Ke Yu, Reuben Dlamini, 2024-08-21 This multidisciplinary edited volume examines higher education's ICT integration in Africa, contributing a new and inclusive change readiness framework to better understand how to manage ICT or other technological disruptions in resource-restrained contexts. Tackling ICT incorporation in HEIs from different levels, chapters document case studies from countries such as Uganda, South Africa, Rwanda, Eswatini, and Zimbabwe, to demonstrate both the complexity of integration but also the successes it has enabled and under which conditions. The cases included in this book also exhibit better incorporation of both change content and process, while some cases also make explicit reference to other technology adoption models. Ultimately, the book highlights conceptual and empirical research to inform practices and policy development in Africa, improving multi-level success or change readiness in ICT incorporation in HEIs in Africa. Addressing various gaps in existing literature and proposing innovative solutions like the multilevel change readiness model, this book will therefore be of interest to scholars, researchers, and academics in the fields of higher education, ICT integration, and educational technology more broadly.
