CPF Certified Professional Forecaster Exams All-In-one ExamFOCUS Study Notes and Review Questions 2015 ExamREVIEW,2014-12-18 The CBF exams target those who work on the supply side Topics are relevant to supply chain forecasting so you must know SCM supply chain management inside and out in addition to understanding the various business forecast techniques To pass the CBF exams I suggest that you do lots of readings readings that are about the current industry trend the best practices case analysis or even commercials Know what is happening in the supply world Know how good or bad different forecast techniques are From these readings you should be able to build up the business sense you need for passing the exams There are 3 exams in the CPF program They are Exam 1 Role of Forecasting Planning in Decision Making Demand Planning Demand Sensing Shaping

Creating Forecasting Planning Process Consumption POS Data Based Forecasting Planning Consensus Forecasting Planning Sales Operations Planning S OP Process Collaborative Planning Forecasting Replenishment CPFR Exam 2 Data Analysis Treatment Fundamentals of Models Modeling Types of Models Time Series Models Model Selection Metrics Measuring Forecast Error and Performance Exam 3 Forecast Reporting Presentation Forecast Communication Winning Support and Confidence of Management Getting Buy in from Stakeholders

Instead of following the official topic flow this book is structured into parts The first part deals with knowledge on supply chain The other parts deal with all sorts of business forecasting techniques and methods Think of part 1 as the foundation knowledge you need to prepare for the exams The 3 exams have topics that are inter related We therefore like to recommend that you study all of them together instead of studying on a per exam basis Get yourself fully prepared on ALL topics prior to sitting any single exam Do not attempt to take the exams unless you have hands on skills making forecasts This study notes provide study material for exam preparation However this is not intended to be used as a tutorial on statistics or forecasting techniques You should go through sufficient hands on exercises before using this study notes A competent test taker will always use multiple resources for preparation There are other readings you will find helpful in learning the subjects Topics not listed in the official subject list may still show up in the exams for purpose of distraction Therefore do as many readings as possible
