The Evolution of Management Thought Daniel A. Wren, Arthur G. Bedeian, 2023-09-27. The new edition of the canonical text on the history and development of management thought. Far more than a chronicle of the historical development of modern management's many roots, the newly released ninth edition of *The Evolution of Management Thought* by Daniel A. Wren and Arthur G. Bedeian is a fascinating telling of how ideas about the nature of work, the nature of human beings, and the nature of organizations have changed throughout history. Language of Advertising in Beauty Products Advertisements Ida Skubis, Dominika Kołodziejczyk, 2024-11-21 This book systematically investigates the linguistic strategies employed in beauty product advertising to assess their persuasive and manipulative effects. The work is divided into two sections a review of relevant literature and an empirical analysis of advertisements. The analysis initially focuses on the linguistic features of advertisements created by humans prior to the introduction of ChatGPT examining the linguistic measures used and their methods of persuasion and manipulation.

Subsequent sections provide a detailed examination of advertisements generated by ChatGPT versions 3.5 and 4.0 analysing the artificial intelligence's use of linguistic techniques. This includes a meta analysis where ChatGPT itself discusses the linguistic strategies it employs. The ultimate goal is to compare and contrast the effectiveness and linguistic devices used in advertisements crafted by humans and those by ChatGPT analysing how AI influences the language of advertising and its impact on consumer behaviour.
