Creating EPUB E-books Using EPUB Editors and Converters Dr. Hidaia Mahmood Alassouli,2020-04-15 Creating E books in epub format is very important to sell E books in electronic book stores Most publishing and distribution E book stores will not accept the epub format document for E book if it includes any warnings or errors when validated and that is a very big challenge to all authors I devoted this book to evaluate some tools that can be used for creating validating and editing E books to be in proper Epub format without errors Personally I suggest the following guidelines for preparing E book in Epub format Write the document in Microsoft word as docx file Make sure to properly setup the h1 headings and h2 headings and h3 headings on each section of the document as these data are the most important data used by the Epub management software to convert the document to epub format Convert the Microsoft document to Epub format using Calibre E book management software Add all required metadata and the cover and also create a table of contents when converting the file Using any Epub reader check if the layout of epub document according to the headings you made on the word document is good and comfortable to any reader Validate the epub document to see if it has errors and warnings using the website <http://validator.idpf.org> Then try to troubleshoot and identify the exact location of the errors detected by the epub validator on the epub document by tracing the code view of the epub document using Sigil epub editor Then modify the word document to eliminate the errors And reconvert the word document to epub format using Calibre E book management software Validate the updated epub document for any errors again This book contains the following sections 1 Some online publishing and distribution stores 2 Epub Validators 3 Creation Epub file through online websites 4 Common software s to convert a file to Epub format 5 Converting document to Epub format using Calibre software 6 Editing Epub documents using Sigil Epub Editor E-doc ,2002

Qualitative Research Using R: A Systematic Approach Yanto Chandra,Liang Shang,2019-04-23 This book highlights the rise of the Strauss Corbin Gioia SCG methodology as an important paradigm in qualitative research in the social sciences and demonstrates how the SCG methodology can be operationalized and enhanced using RQDA It also provides a technical and methodological review of RQDA as a new CAQDAS tool Covering various techniques it offers methodological guidance on how to connect CAQDAS tool with accepted paradigms particularly the SCG methodology to produce high quality qualitative research and includes step by step instructions on using RQDA under the SCG qualitative research paradigm Lastly it comprehensively discusses methodological issues in qualitative research This book is useful for qualitative scholars PhD postdoctoral students and students taking qualitative methodology courses in the broader social sciences and those who are familiar with programming languages and wish to cross over to qualitative data analysis At long last We now have a qualitative data analysis approach that enhances the use of a systematic methodology for conducting qualitative research Chandra and Shang should be applauded for making our research lives a lot easier And to top it all off it s free Dennis Gioia Robert Judith Auritt Klein Professor of Management Smeal College of Business at Penn

State University USA While we have a growing library of books on qualitative data analysis this new volume provides a much needed new perspective By combining a sophisticated understanding of qualitative research with an impressive command of R the authors provide an important new toolkit for qualitative researchers that will improve the depth and rigor of their data analysis And given that R is open source and freely available their approach solves the all too common problem of access that arises from the prohibitive cost of more traditional qualitative data analysis software Students and seasoned researchers alike should take note Nelson Phillips Abu Dhabi Chamber Chair in Strategy and Innovation Imperial College Business School United Kingdom This helpful book does what it sets out to do offers a guide for systematizing and building a trail of evidence by integrating RQDA with the Gioia approach to analyzing inductive data The authors provide easy to follow yet detailed instructions underpinned by sound logic explanations and examples The book makes me want to go back to my old data and start over Nicole Coviello Lazaridis Research Professor Wilfrid Laurier University Canada Qualitative Research Using R A Systematic Approach guides aspiring researchers through the process of conducting a qualitative study with the assistance of the R programming language It is the only textbook that offers click by click instruction in how to use RQDA software to carry out analysis This book will undoubtedly serve as a useful resource for those interested in learning more about R as applied to qualitative or mixed methods data analysis Helpful as well is the six step procedure for carrying out a grounded theory type study the Gioia approach with the support of RQDA software making it a comprehensive resource for those interested in innovative qualitative methods and uses of CAQDAS tools Trena M Paulus Professor of Education University of Georgia USA

The art of Self Publishing and Website creation Premyogi vajra,2021-01-02 This book is a compilation of Premyogi vajra s blog posts that he has created for demystifyingkundalini.com Premyogi vajra is a self aware and mysterious person With his Kundalini awakening there was a flood of high mentality in his brain Impressed by that he created many books and the above website Regarding his experiences related to book publishing and website making he made them known as his blog posts A separate chapter has been created for each article Readers will surely find this e book interesting informative and comfortable to read Knowledge sharing is a fundamental tool to grow a society Experience gained without subsequent sharing is of little value It remains confined to a single man and gets perished with him Therefore to be able to properly and easily share one s experiences one must know at least basics of self publishing and website creation for these are basic modern tools of sharing knowledge Writer had to deal with great deal of hassel while learning self publishing and website creation He took many years to learn their basic tips So that people do not get suffered like himself he complied all tips he got while learning these in form of this book Hope that people will find this book brief practical and easy Friends if the art of sharing experiences with everyone is not learned then those experiences would not have special significance Those experiences remain confined to that single man and perish with him In today s times websites and e books are the most important means of sharing experiences Therefore it is important for everyone to have basic

knowledge of website creation and self publication This book serves very well the same purpose of achieving this goal
