Ontario Provincial Parks Trail Guide

Tim Jepson, Phil Lee, Tania Smith

Ontario Provincial Parks Trail Guide:

Ontario Provincial Parks Allen MacPherson, 2000 This is the first complete guide written for interpretive and hiking trails in Ontario's provincial parks. It offers an overview of the 302 trails found in the 87 operating provincial parks with a more in-depth look at the author's favorite trails in each region of the province. Trails range from the well-known and well-used to those rarely visited. They lead to all manner of rivers, waterfalls, caves, cliffs, wetlands, wildflowers, wildlife, native pictographs, abandoned farms, old mines, and historic ruins. Most walks in the book are under two hours in length and accessible for the average hiker. Ontario's Old-growth Forests Michael Henry, Peter Quinby, 2010 Who would have thought that dwarf cedar trees growing on the Niagara Escarpment could live to be nearly 2000 years old? Or that the small bonsai cedars lining the shorelines of the Canadian shield measure their ages in centuries? Old-growth pine trees in Temagami are often over 10 stories tall, but these are young sprouts compared to trees of yesteryear which were as much as 20 stories high. Ontario's old-growth forests are fantastical and mysterious, but who knows where to find one? Most people in this province live within an hour's drive of an old-growth forest but do not know it. The ecology of these stands is engrossing. Fire scars on these trees, for example, provide an indisputable record of forest fire activity in Ontario. Small hemlock saplings over 100 years old have been growing at infinitesimal rates, waiting for a gap to open in the forest canopy. **Fin & Feather Trail**
