*Global Perspectives on Indigenous Film and Literature* Amar Ramesh Wayal, A. P. Anupama, 2025-09-22 This edited volume comprehensively explores narrative survival in Indigenous film and literature forging a literary and transitional approach to native writing. It navigates the evolution of Indigenous voices spanning the oral tradition and literary forms from colonial times to the present. It covers a range of issues related to indigenous inequalities and diversities in film and literature. With chapters from global perspectives including North America, Canada, New Zealand, and South Asia, it ensures an inclusive exploration of indigenous narratives. The diverse chapters address topics such as the aboriginal experience, residential school legacy, the invisible nation of Algonquins, tribal songs, decolonial futures, caste survival, narrative trauma, and other marginalized groups such as low castes, linguistic minorities, and Adivasis tribes. The book focuses on innovative concepts to understand the study of a particular indigenous group in isolation from others and more than the conventional comparative study of different indigenous groups. It deals with the challenges of achieving local indigenous rights and identities. It is a valuable resource for social science and humanities scholars, particularly for indigenous scholars, development professionals, and administrators interested in the issues related to social diversity and indigeneity in a global setting.

**A New Approach to Reading Videogames as Story** Thomas Rowland, 2026-01-27 This book introduces a new methodology for understanding videogames with particular attention to three types of videogames: toy games, storybook games, and ludonarratives. This methodology pulls from phenomenological and deconstructionist roots informed by medieval studies and the history of reading to emphasize how important playing stories can be as a form of narrative. This book explores the idea of storyplaying in connection with new ideas on intromersive movement, game mechanics, and sacred play to develop a typology of videogames that will enable critics, educators, and theorists to situate videogames within a broad continuum of literary history. Building on this foundation, this book continues by exploring additional facets of this methodology by exploring the relationship between videogames and film criticism, the emerging art world of game-mediated photography, the various economies constructed around videogames, the potential of games to serve as third places, and some suggestions for videogames in the classroom. These ideas are contextualized by the author's argument that videogames serve a purpose akin to the original function of medieval cathedrals as intentional virtual spaces with dedicated and important meditation, which given today's decadent cultural and political climate underscores the urgency of recognizing videogames as being vital to our scholarly and educational enterprises.

*In Theaters Everywhere* Brian Hannan, 2018-12-31 Conflicts among Hollywood studios and exhibitors have been going on for years. At their heart are questions about how films should be released, where, when, and at what speed. Both sides of this disagreement are losers, with exhibitors using the law via various Consent Decrees and studios retaliating by tightly controlling output. In the Silent Era, movies were not released nearly as widely as they are now. This book tells the story of how the few became the many. It explores the contraction of the release cycle, the

maximization of the marketing dollar and the democratization of consumer access It also offers a comprehensive list of wide releases and rebuts much of what previous scholars have found     **Spectrum** ,1991     *American Film* ,1983     Sight and Sound ,1995     **The Top 10 of Everything, 1997** Russell Ash,1996 Contains top ten lists in a wide assortment of categories covering the universe humans crime culture music entertainment food transportation sports and other topics
