Media And Its Influence:

Research on the Communication Effects and Mass Media Credibility in China Guoming Yu, 2022-10-29 This book establishes a measurement index to quantify China's mass media public credibility based on extensive research and the encapsulation of measurement theories and approaches related to media public credibility as well as numerous empirical case studies from the international academic community over the past hundred years. The investigation into the current state of Chinese mass media public credibility and discussion on practical approaches to enhancing such public credibility is highly significant in the context of research on media public credibility. The book focuses on two fundamental issues: i) investigating the basic factors the Chinese audience values as the yardstick for media credibility and ii) formulating a media public credibility measurement scale. Relying on data from investigations, the authors analyze the importance of various assessment benchmarks for measuring media public credibility and the characteristics of public credibility assessment. Lastly, a measurement scale is created by screening and analyzing measurement indices with statistical methods such as exploratory and authenticated factor analyses and credibility and validity testing, which is of high theoretical and practical scientific value.

Influences of Social Media on Consumer Decision-Making Processes in the Food and Grocery Industry

Tarnanidis, Theodore, Vlachopoulou, Maro, Papathanasiou, Jason, 2023-08-07 In today's rapidly evolving digital landscape, entrepreneurs in the grocery retail industry face numerous challenges in navigating the complexities of online operations and services. As social media platforms have emerged as powerful communication tools for marketing, promotion, and customer service, a fundamental shift has occurred in the marketing landscape. This transformation has granted businesses unprecedented access to monitor customer behavior and preferences. By leveraging social media communications, sellers work diligently to effectively target their desired audience by strategically positioning and categorizing data. *Influences of Social Media on Consumer Decision Making Processes in the Food and Grocery Industry* delves into the transformative power of social media and digital marketing techniques, shedding light on how businesses strategically employ online communication strategies to sway consumers' purchasing decisions. This comprehensive book explores the tireless efforts of grocery and food entrepreneurs to evaluate the far-reaching effects of social media on the consumer decision-making process. It investigates various web-based social media platforms and tools, delves into the impact of social media and mobile apps, and examines the utilization of cutting-edge Information Communication Technologies (RFID, QR codes, NFC, cloud, SaaS, mobile devices, robots, and more) within the grocery and food sector. By studying the present landscape, this book not only sheds light on the current state of social media communications but also offers valuable insights into the future trajectory of this dynamic industry. Entrepreneurs, marketers, researchers, and policymakers alike will find this book an indispensable resource for understanding the profound impact of social media on the ever-evolving grocery and food landscape. *Media-State Relations and Social Media* Tyler W. Wilson, 2024-11-15 This book updates scholarship related to media-state relations for the

social media age It presents a timely account of how states have engaged with the platforms that have spread around the world and the challenges that this presents Further it is positioned at a novel intersection between the Communications and International Relations disciplines so scholars and students of both fields will find value within it In particular the book explores the Four Theories of the Press s role as a seminal text within media state relations scholarship It reimagines the original models through a Neo Gramscian lens The four models contained within the book deepen the analytic power of the original and align these ideas with the complexity of social media Importantly this book presents original research findings on measuring and quantifying the social media state relationship as theorised by establishing and validating the new Order Index Scholars and students of the fields discussed within will find value in the theoretical models and the quantitative instrument developed to measure these models Of note is that the book contains the basis for using the Order Index in future research and highlights a new research future within this space [Influence of the Media on Society](#) Elio

Loving Our Enemies Through Seasons of Bitterness Lex Kohn, 2025-06-30 In a nation crumbling under the weight of bitterness where government is the people's god the way through is neither legislation nor activism but loving the least loveable. A study of internet influence, conflict theory and nineteenth century wisdom reveals that people do not have to solve their disagreements if they can relearn how to love their enemies as Christ commanded. This book highlights courageous men and women of faith from biblical times up through the present who obeyed this commandment, the Scriptures they followed and how they managed it so that people today too might learn to substitute love instead of bitterness.

Smart Designs for Business Innovation Asma Salman, Assem Tharwat, 2024-03-02 This book and the papers published within it delve into the topic of governance in a modern digital age, deliberating upon digital finance, societal security and digital governance, proving essential to governmental institutions, policymakers, economists and finally social educators. The formation of a prosperous and resilient society is without a doubt a daunting monumental task. Addressing people's needs, maintaining their well-being, ensuring safety from external threats and implementing a just law system that covers contemporary ways of life are no simple task. Thankfully the advent of technological advancement helps lighten the heavy burden of governance. The element of interconnectedness brought forward by technological innovation has bridged the gap between society and government, allowing for faster interactions through the digitalization of naturally bureaucratic processes and the utilization of digital finances.
