**Cyber Public Sphere and Social Movements** Sami Çöteli,2018 The diversification and politicisation of the mass media within itself and also societal pressure created by the mass media at a social level have caused changes to our social structure The first change began with the contextual changes to the mass media and this change led to visible changes in societies That transformation has almost erased the distinction between the private and the public spheres especially as social media has entered our lives Now things that occur in the private sphere are easily transported into the public sphere and others private spheres Therefore the virtual public sphere has emerged through social media and all other practices on the internet It appears that activist movements have either been founded in the cyberworld or that existing activist movements have been strengthened by finding supporters via social media and blogs The public sphere and activist movements that come into existence in the virtual environment such as social media

are a new experience in terms of societies and they are the sign of how the future will be shaped It is obvious that social media is now an integral part of our daily lives It is a place where political and secular ideas spread In this social area each individual has the opportunity to make political statements as if they were standing in an agora Shared content represents the position within the virtual life that individuals have built for themselves This study defines the virtual public sphere together with virtual activism and the network society in the light of the public sphere private sphere debates *The Hollywood Reporter* ,2008 *Black Enterprise* ,2010-02 **Computerworld** ,2009 *The Economist* ,2009 **Business Week** ,2008 *The House Magazine* ,2009 *Typography 33* Type Directors Club,2013-04-16 For over fifty years the Type Directors Club has encouraged the worldwide graphic arts community to achieve excellence in typography through its annual international competitions *Typography 33* is the only annual devoted exclusively to typography and presents the finest work in the field for the year 2011 Selected from approximately 2300 international submissions to the annual Type Directors Club competition the winning designs are models of excellence and innovation in the use of type design representing a wide range of categories including books magazines corporate identities logos stationery annual reports video and web graphics and posters **Parliamentary Debates (Hansard)**.
