The Ubiquitous Presidency Joshua M. Scacco, Kevin Coe, 2021 American democracy is in a period of striking tumult The clash of a rapidly changing socio technological environment and the traditional presidency has led to an upheaval in the scope and standards of executive leadership Yet research on the presidency although abundant has been slow to adjust to changing realities associated with digital technologies diverse audiences and new elite practices Meanwhile journalists and the public continue to encounter and shape emerging presidential efforts in deeply consequential ways Joshua Scacco and Kevin Coe bring needed insight to this complex situation by offering the first comprehensive framework for understanding contemporary presidential communication in relation to the current socio technological environment They call this framework the ubiquitous presidency Scacco and Coe argue that presidents harness new opportunities in the media environment to create a nearly constant and highly visible presence in political and nonpolitical arenas They do this by trying to achieve longstanding presidential goals namely visibility adaptation and control However in an environment where accessibility personalization and pluralism are omnipresent considerations the strategies presidents use to achieve these goals are very different from what we once knew Using this novel framework as a conceptual anchor The Ubiquitous Presidency undertakes one of the most expansive analyses of presidential communication to date Scacco and

Coe employ a wide variety of approaches ranging from surveys and survey experiments to large scale automated content and network analyses to qualitative textual analysis to uncover new aspects of the intricate relationship between the president news media and the public Focusing on the presidency since Ronald Reagan and devoting particular attention to the cases of Barack Obama and Donald Trump the book uncovers remarkable shifts in communication that test the institution of the presidency and consequently democratic governance itself

Space Expansionism and Criminology

Dawn L. Rothe, Victoria E. Collins, 2025-02-18 We have entered a recent zeitgeist the era of the new space age driven by billionaires technological advancements and a few dominating state powers While the race to space may be said to offer new opportunities for humanity we ask is it predicated on the same logics and historical patterns of the past This question guides our approach and critical assessment of human expansionism into space Space Expansionism and Criminology The Emerging Terrain of Crime Harm and Violence offers readers a critical analysis of space expansionism and today s race to space that has come to define our contemporary era Taking a retrospective and prospective approach we delve into the choices being made the justifications being offered and those excluded from the hegemonic discourse of the benefits of humans as extraplanetary beings Space Expansionism and Criminology includes chapters on the historical roots of today s space race weaponization and realpolitik space junk and debris space mining and resource extrapolation the burgeoning space tourism market the manufacturing of space nostalgia from the 1950s through today and efforts towards and claims making for space colonization to save Earth and humanity
