Response and the Cost of Lockdowns brings the vast analytical apparatus of the humanities and social sciences to the task of

critically analysing the political decisions taken in 2020 21 The global response to the COVID 19 pandemic left little time for
critical debate about the impact of lockdowns Across the world governments claimed to follow the science but they rarely

paid attention to the humanities and social sciences Indeed the absence of these perspectives is symptomatic of a longer
term trend in the marginalisation of the humanities and social sciences in policymaking and public debate This book exposes

the tragic consequences of this omission in 2020 21 and demonstrates the potential for a different path in the future a path in
which we pay attention to power complexity and our biases The authors establish what these disciplines have to offer in a

global emergency and how we can ensure they help us avoid the mistakes of 2020 21 in the future This original and
