

SLEEP HACKS FOR BETTER HEALTH

ROUTINE

Choose a regular time of the day/night when you go to bed and wake up each day.

KEEP YOUR ROOM COOL

Colder rooms help you fall asleep faster and maintain a deeper sleep.

KEEP YOUR ROOM DARK

Sleeping in a dark room reduces the stimulation of light telling your body to be active.

REDUCE SCREEN TIME

Turn off electronic devices 30-60min before bed to reduce the stimulation of blue light.

EXERCISE

Try exercising in the morning. Elevated body temps and heart rate can make it harder to fall asleep.

CAFFEINE INTAKE

Caffeine has a half-life of about 5-6 hours so keep this in mind as bedtime nears.

Cyber-espionage in international law Thibault Moulin, 2023-05-02 While espionage between states is a practice dating back centuries the emergence of the internet revolutionised the types and scale of intelligence activities creating drastic new challenges for the traditional legal frameworks governing them This book argues that cyber espionage has come to have an uneasy status in law it is not prohibited because spying does not result in an internationally wrongful act but neither is it authorised or permitted because states are free to resist foreign cyber espionage activities Rather than seeking further regulation however governments have remained purposefully silent leaving them free to pursue cyber espionage themselves at the same time as they adopt measures to prevent falling victim to it Drawing on detailed analysis of state practice and examples from sovereignty diplomacy human rights and economic law this book offers a comprehensive overview of the current legal status of cyber espionage as well as future directions for research and policy It is an essential resource for scholars and practitioners in international law as well as anyone interested in the future of cyber security
