Uber Deal:

Uber B. Yasanthi Perera, Pia A. Albinsson, 2020-01-16 Uber is one of the most innovative companies of our time This book provides a detailed analysis of the company and its success and goes beyond the headlines about safety and culture Many of us are so accustomed to using Uber today that the name of the innovative ride sharing company has become a verb as in to Uber somewhere and yet Uber has been around only since 2010 Uber has disrupted the ride hailing industry from making it easier and more affordable to become an Uber driver than a cab driver to rating riders as well as drivers As an early pioneer in using technology to create a new business model and new efficiencies Uber is considered one of the most important case studies in the sharing economy However little in depth information exists on this innovative company This book traces Uber's origin and evolution in the face of competitive pressures discusses the company leadership and corporate culture addresses such controversies as rider and driver safety and sexual harassment of female employees and explores how the company is addressing these challenges Students of business entrepreneurs and anyone interested in the development and exponential growth of the sharing economy will benefit from reading this book The Labour Politics of App-Based Driving in Vietnam

Joe Buckley, 2023-10-19 Over the past decade app based driving services like ride hailing and delivery have become an integral part of business employment and daily life in Vietnam This growth however has been accompanied by tensions and conflicts between ride hailing platforms and traditional taxi companies xe m motorbike taxi drivers the authorities and the drivers working for these platforms Most drivers on these services are male and work long hours for low wages Their working conditions are precarious because platforms classify them as partners rather than employees denying them basic rights and benefits Although platforms offer bonuses organize events to celebrate drivers contributions and provide training courses these do not address the fundamental exploitation in the employment relationship The Ministry of Labour Invalids and Social Affairs MOLISA has not taken sufficient action to protect drivers or taken a stance on whether they should be classified as contractors or employees The Vietnam General Confederation of Labour VGCL is working towards securing social protection for drivers and increasing their representation in labour associations While some members of the VGCL have argued that app based drivers are actually workers and should be afforded the same rights and benefits as all workers this is as yet not the formal position of the confederation Drivers have taken to organizing strikes and protests to demand better treatment from the platforms Their methods of activism are rooted in both traditional Vietnamese labour activism and global trends of platform protest The emergence of the gig economy in Vietnam is a challenge to sustainable development Policymakers and practitioners are called upon to ensure that platform work contributes to improved livelihoods and decent lifestyles for all **Groupon's Biggest Deal Ever** Frank Sennett, 2012-06-05 The inside story of the meteoric rise of Groupon from startup to 30 billion online giant and the audacious genius behind it founder Andrew Mason In late 2010 Groupon made an incredible gamble Rather than take Google's 6 billion buyout offer founder Andrew Mason turned the

search giant down and decided to go it alone The experts thought he was insane Groupon was little more than two years old and staffed from top to bottom with twenty somethings The wild ride couldn't last but Mason thought otherwise and with knowledge of a possible IPO he liked his odds A discount service that offers a deal a day at local merchants in countless cities in more than forty three countries Groupon is the fastest growing company in Internet history and is as committed to innovating a new model for commerce as it is to creating an office culture and editorial voice based on radical transparency and absurd humor Groupon's Biggest Deal Ever is the exclusive and unparalleled account of the incredible rise of discount giant Groupon and the compelling story of its offbeat founder Andrew Mason as he created a juggernaut of online commerce and ignited a consumer revolution
