*Innovation Through Information Systems* Frederik Ahlemann, Reinhard Schütte, Stefan Stieglitz, 2021-10-28 This book presents the current state of research in information systems and digital transformation. Due to the global trend of digitalization and the impact of the Covid 19 pandemic the need for innovative high quality research on information systems is higher than ever. In this context the book covers a wide range of topics such as digital innovation, business analytics, artificial intelligence and IT strategy which affect companies, individuals and societies. This volume gathers the revised and peer reviewed papers on the topic Management presented at the International Conference on Information Systems held at the University of Duisburg Essen in 2021. *International Management in Service Firms* Dirk Klimkeit, Pengji Wang, Huiping Zhang, 2024-05-22 This textbook examines how service firms manage their international operations. For the first time it brings together insights from the fragmented literature on this subject into an accessible textbook. Further it is unique in its focus on service firms' internationalization and international management. Beginning with an overview of the international environment in which service firms operate it subsequently describes multinational service firms and their internationalization processes, strategies and organization. Unlike most texts on international services the book goes beyond internationalization to address the ongoing management of service firms. It not only addresses functions such as global service marketing, financial management and human resource management but also discusses aspects such as global account management, global service delivery and international project management as well as the topical issue of managing distributed virtual teams. A dedicated chapter focuses on offshore shared services and business process outsourcing. These chapters are complemented by a discussion on international corporate governance and corporate social responsibility. The book is intended for students preparing for international careers in the service sector. Each chapter includes case studies, illustrations, highlighted definitions, a chapter summary and exercises.
