Today every school in Germany offers English as a school subject even the primary schools. Consequently it must be put great emphasis on teaching it accurately by taking into consideration any aspect of English language acquisition when learning it for example the acquisition of a distinctive vocabulary, the ability to use grammar rules correctly, the ability to spell correctly, the ability to understand what is been said when native speakers talk in English which we call listening comprehension. Another very important part of learning English as a foreign language is undisputedly reading comprehension. The ability to read out correctly to understand what is been read and to be able to work with a text effectively is not only a competence that should be concentrated on in the foreign language but also in the mother tongue. The PISA Study is a perfect proof of this which will be mentioned later on. In this paper I will try to accentuate the importance and significance of

reading in the English class In order to illustrate this I will introduce the novel A Thousand Splendid Suns by Khaled Hosseini an American author and doctor with Afghan origins and use it for the elaboration of the importance of reading activities in the English class Initially I will focus on the didactic analysis which includes the reference to the syllabus The syllabus is of course the signpost in terms of guidelines when planning the lessons choosing age appropriate media and methods What role does reading play in this context What is said in the syllabus when it comes to reading The next Reading and Study Skills John Langan,2007 The Special EDge ,2000 **Technology for Communication and Cognitive Treatment** Joan L.
