*Resources in Education* ,1991-04      **Student Advantage Guide to the Best 310 Colleges 1997** Tom Meltzer,John Katzman,Edward T. Custard,1996-07-30 When it first appeared USA Today called this book the guide that doesn't follow a textbook approach to college life The Best 310 Colleges is based on The Princeton Review's student surveys the largest campus surveys in the nation More than 59 000 students answer questions on everything from academics to campus life Topics include the quality of teaching dorms and dining hall fare campus politics left or right and conservative or liberal whether the student body is diverse or homogeneous tolerant or intolerant of race class relations and of gay students and high or low in its use of beer liquor and marijuana In fact this book has caused schools across the country to change their food campuses and drinking policies Also included is information concerning admission and financial aid policies student body demographics average recentered SAT scores and What's Hot What's Not as well as the Counselor O-Matic an easy to use if highly unscientific guide to your chances of getting into each of the top 310 colleges by calculating your desirability rating and comparing it to each school's selectivity rating Here's a sampling of what students have to say This school is filled with wealthy well dressed egomaniacs who are about as socially conscious as Marie Antoinette I'm premed and there's no place I would rather be The academics are a killer no joke but for those few who survive the world is their oyster If you're not Caucasian the adjustment here is tremendous Since this is a Jesuit institution not all viewpoints get expressed particularly liberal ones about gays and premarital sex You have to be smart about where you go at night The food here is really bad it's either bland or sickening You're lucky if they don't screw up the bread Socially the surrounding area is so dead that the Denny's closes at night Girls over 5'8" watch out for some reason guys here have munchkin blood in them or something

*Report of the Agricultural Experiment Station of the University of California ...* California Agricultural Experiment Station,1898      **Inventing Structures for Industrial Research** Kees Boersma,2002 The early history of the Philips National Laboratory began in the winter of 1913 when Gerard Philips and his brother Anton founded a research organization as a separate part of their company in Eindhoven The Philips brothers hired Gilles Holst and others to carry out scientific experiments in order to improve existing light bulb technology and later to create new products such as x ray tubes and radio sets Holst became the leader and organizer of the research laboratory Scientists who worked under him proved the business value of industrial research for the Philips company The National Laboratory story indicates that it was not enough for Philips to simply have a tradition of innovation the company also needed to create a culture and structure that permitted the coordination between people and resources that was necessary for developing innovations in an industrial context These innovations spaw such diverse topics as irradiation of plants with artificial light and creating an agricultural research network of particular interest is comparisons drawn between Philips and General Electric Kees Boersma shows that the National Laboratory history in the first decades of the twentieth century can be seen as part of a broader development internationally During the function of the industrial research laboratory became institutionalized The institutionalization process of industrial research involved an intentional structuring of the research organization in the company in which various persons worked together in specific business contexts At a local level Philips people headed by Holst reinvented the research function It is exactly this process that is central this book This will be a welcome addition to the literature on business history informed as it is by a sense of social theory and social organizations Kees Boersma is a historian who works as a researcher in the group of Culture Organization and Management of the Faculty of Social Studies at the Free University of Amsterdam His research expertise is grounded in the areas of science technology culture and organization studies
