improves its information on borrowers it will not be well placed to secure value for money BIS forecasts that the total value
of outstanding student loans will increase from 46 billion in 2013 to approximately 200 billion by 2042 in 2013 prices The
number of borrowers due to repay is projected to increase from 3 million in 2012 13 to 6 5 million by 2042 The loan book is

invest to maximise the collection value of the loan book In designing how student loans would work BIS anticipated that a
proportion of the loans would not be repaid However BIS has not set an annual target for the amount to be collected because
repayments are affected by graduate earnings and economic factors outside its direct control Annual repayment forecasts are
consistently higher than amounts collected While many borrowers may not be in employment BIS and the SLC have carried
