It controls and coordinates our actions, thoughts, and interactions with the world around us. It is the source of personality, our sense of self, and it shapes every aspect of our human experience. Yet most of us know precious little about how our brains actually work or what we can do to optimise their performance. Whilst cognitive decline is the biggest long-term health worry for many of us, practical knowledge of how to look after our brain is thin on the ground. In this ground-breaking new book, leading expert Professor James Goodwin explains how simple strategies concerning exercise, diet, social life, and sleep can transform your brain health paradigm and shows how you can keep your brain youthful and stay sharp across your life. Combining the latest scientific research with insightful storytelling and practical advice, **Supercharge Your Brain** reveals everything you need to know about how your brain functions and what you can do to keep it in peak condition.

Skip the Line James Altucher, 2021-02-25. The 10,000-hour rule isn't the only way to achieve mastery. Entrepreneur, angel investor, and bestselling author James Altucher reveals a new mindset and proven toolkit that will empower anybody to quickly acquire the skills they need to succeed and achieve their dreams. We live in a hierarchical world where experience has traditionally been the key to promotion. But that period is over. Straight, clear-cut career trajectories no longer exist. Industries disappear, job descriptions change, and people's interests and passions evolve. The key to riding this wave is to constantly be curious about what's next, to be comfortable with uncertainty so you can keep navigating the rough waters ahead, and most importantly, to pursue the things that interest you. In **Skip the Line**, James reveals how he went from struggling and depressed to making his personal financial and creative dreams come true. While showing you how to approach change and crisis, he gives you tools to help easily execute ideas, become an expert negotiator, attract the attention of those around you, scale promising ideas, and improve leadership, which will catapult you higher than you ever thought possible, and at a speed that everyone will tell you is impossible.
